Description

Dear Reader,

I'm living a life I couldn't even have *dreamed* of a few years ago. I'm married to Bobby Polgar now (you know, the famous chess champion who just happens to be the man I love!). And we've got this beautiful house with a view of Puget Sound.

But lately something's been worrying Bobby. When I asked, he said he was "protecting his queen"—and I got the oddest feeling he wasn't talking about chess but about *me*. He wouldn't say anything else.

Do you remember Get Nailed, the beauty salon in Cedar Cove? I still work there. I'll tell you about my friend Rachel, who's got two men interested in her (count 'em, *two*). And I'll let you in on what I've heard about Linnette McAfee, who left town when her love life fell apart. (*That* kind of trouble I know all about.) Come in soon for a manicure and a chat, okay?

Teri (Miller) Polgar

Insightful reviews

Lilly: Unplanned, I began reading the Cedar Cove series, of which 74 Seaside Avenue is 7th in the series, pretty much toward the end of the series. A Cedar Cove Christmas was the first book I read in the series and I found it to be an entertaining story, and it did not overwhelm me with too many characters in the story line. I read another book or two toward the end of the series and in 1022 Evergreen Place (book #10) a page at the front of the book listed the cast of characters. Generally, I listen to the books in this series on CD, which I borrow from the library, as well as check out the library book in case a CD is scratched so badly I cannot play part of it. The book is nice to have also if I feel like reading instead of listening.

For the most part, I listen to Debbie Macomber books on CD when performing chores around my home or in the car when running errands. I find them entertaining and not much brain power expended to grasp the story line. After listening to three books in the Cedar Cove series, I began listening to them in the order Macomber wrote them. Following the completion of 74 Seaside Avenue, I will just have 44 Cranberry Point and 50 Harbor Street to listen to. I tried to listen to 1105 Yakima Street, book #11, but I found the bratty Jolene character as well as the whiny Rachel character too obnoxious to endure, and ceased listening after two CD's.

I am finding 74 Seaside Avenue far fetched in way of plot than the other books in the series. It is the Polgar story line I find unbelievable. I also don't like Troy Davis' daughter Megan's character. I find her behavior manipulative. She is not considering her father's need for companionship; she is too self-absorbed in her own grief to see his needs. Megan is not a child; she is an adult with a husband and new baby on the way. I will finish listening to this book.

Overall, I have enjoyed listening to the Cedar Cove series. Macomber's Blossom Street series is

my favorite.

Amy: I really liked this book. Some characters that we had not heard from in awhile. This is a very fun series to read and so far, this was in my favorite.

Helen Gaye Brewster: This adorable little book made me want to read the whole Cedar Cove series, but it was very easy to follow the plot without having read any of the other books. Debbie Macomber writes about the families living in the homes of Cedar Cove, a small town in Washington that's loosely based on Port Orchard, WA, where the author lives. On the shore of Puget Sound, Cedar Cove is a lovely little town, and each book in the series is titled with an address and tells the story of the family that lives there. 74 Seaside Cove is the home of Terri Polger, a hairstylist at a mall salon, and her husband Bobby, a world-famous chess champion. There's a little mystery as they try to determine who would want to harm Terri, a little romance as Bobby's friend, chauffeur and bodyguard falls in love with Terri's somewhat rough-around-the-edges sister, and some bonding between old and new friends in this tight knit little town.

Karen: My husband observed this ebook on the library and idea i might love it so he grabbed it for me. Neither people knew this was once #7 in sequence until eventually I got here to expense it on Goodreads. i used to be going to assert that for such a simple read, there have been too many characters for me to maintain their backstories instantly so i used to be ranking it a 2. checking out that it is so a ways in a chain explains why and if i might learn all of the past books, i'd were capable of continue it immediately and that i might have given it three stars. yet i actually don't believe i'd have learn greater than the 1st one.

Emma: final weekend I went out of town. because the force was once five hours, I took 50 Harbor Street, and in my haste to get issues packed, I took seventy four beach street rather than the following book, 6 Rainier Drive. i did not detect what I had performed until eventually today, while I has virtually complete analyzing seventy four seashore Avenue. Even notwithstanding I ignored a complete book, i used to be capable of finding out what occurred to the Lighthouse eating place in addition to to different issues that have been left striking from ebook #5. I did need to know a bit extra as to how they found out who did what or the place sure characters went, yet i'm going to discover in complete information via going again to learn 6 Rainier Drive. The fantastic thing about Debbie Macomber is that she does a good activity and summarizing what has occurred in earlier books with out draging the tale along. So, if this would've been the 1st e-book I picked up from this series, I would've been capable of comprehend what used to be going on. I additionally love that initially of the book, she has a listing of the citizens in Cedar Cove, who they are, who they're married to and if there's something specified happening of their lives.

Linda: Boring! Disconnected! nonetheless attempting to work out who used to be who! Ha, ha, I simply learn experiences from other folks and no ask yourself i could not work out the characters, etc. it is #7 in a sequence and characters are woven out and in all through each one book. I nonetheless might simply supply it 2 stars simply because it truly is like a gossipy cleaning soap opera!
