Description

When a young reporter is viciously murdered, Mobile, Alabama, detectives Carson Ryder and Harry Nautilus find themselves drawn into the dealings of the wealthy Kincannon family-until Ryder is abducted-with no clues as to who did it or why. Digging to uncover the truth that could lead him to his partner, Nautilus discovers a web of connections between the dead reporter, an enigmatic behind-the-scenes powerbroker, and the Kincannons' own dark secrets. The question quickly becomes: What would the perfect family do to protect that image of perfection? The answer: Whatever it take

Insightful reviews

Robert: While not writing like Connelly or Deaver, Kerley still does a very good job. Twisting a tale of mystery out with enough turns and jabs to keep the reader entertained. The third in this series and still going strong. I rate this at an actual three and a half stars. Definitely looking towards reading the rest of the books in the series in the near future.

Mary Gilligan-Nolan: I think this is also titled "The Garden of Vipers", but the third in the Carson Ryder series, which I have just finished. This series gets better by the book. The characters are developing well, Carson and Harry, his partner, are caught up in a complex series of murders which seem unrelated initially and then weave together into something that started 4 years before the one they are now investigating. Carson becomes the target of a powerful family, who will stop at nothing to get what they want, including his current girlfriend, Deedee Danbury. There are plenty of twists and turns leading up to Carson getting himself into a very sticky situation. Jack Kerley is a great writer and tells a story you just want to stay up all night for.

Deanne: Hard to put down, and I've just been to the library to pick up the 3 Carson Ryder books I haven't read. Have a feeling that I'm going to be waiting for any subsequent books to come out for months, only to read them in a couple of days.

Terrie Sharp: I loved this one loads that midway via analyzing it (definite i really have the book) I searched on-line and located a used publication seller via Alibris that had fairly cheap, a little bit used, copies of all Jack Kearlys books for sale. 3 days after completing backyard of Vipers, i've got all started the paperback buddy that is going to convey brother Jeremy again into the story...any one that is learn the sooner Carson novels is familiar with to shiver on the considered Jeremy. i am off all week and analyzing is excessive on my record of pleasures.

Ben: It took me below an afternoon to learn this Ryder/Nautilus secret thriller. I loved each inch of it even though now not up to The Hundredth guy or The dying Collectors. it kind of feels Ryder will get the lady within the end. Its a quick paced trip via Mobile, Al. Kerley's description of town and the folk is among the purposes i would wish to stopover at there.

Laurie: A backyard of Vipers was once an outstanding learn from Jack Kerley. Carson Ryder and Harry Nautilus are again and this time they capture a case that runs deeper than it appears. After racing to a criminal offense scene, Ryder and Nautilus notice the physique of a tender

reporter who has been brutally tortured and stabbed to death. This younger lady was once a pal of Carson's girlfriend, reporter DeeDee Danbury, so Carson strongly desires to resolve this murder. The research leads him in a stunning course in the direction of a filthy rich philanthropic relations named the Kincannons. funds buys difficulty hence and shortly Ryder and Nautilus are investigating a slippery slope of anger and deception. Meanwhile, DeeDee and Ryder have cut up and he or she is at the moment seeing one of many Kincannons. With tangled webs operating in all instructions and effect hiding clues at each turn, this situation can be Ryder and Nautilus' last. Jack Kerley's writing is enticing and thought-provoking. every one publication that I learn during this sequence attracts me extra into the characters and that i take pleasure in every one tale greater than the last. Carson Ryder and Harry Nautilus have the best dating as partners. Harry confirmed extra of his feelings during this publication and staring at his personality develop made him think extra real. As for Carson, he learns whatever approximately himself via every one of his relationships and his development leaves me rooting for him to be triumphant at each turn. The stunning absence of Jeremy (my favourite character) during this ebook made the plot much more interesting. The suspense was once preserved at each flip and that i loved the tricky information of the Kincannon relatives that have been slowly brought in the course of the motion taking place. Ryder's romantic scenario greater the publication instead of detracting from it and that i would really like to determine anything enhance among him and Claire. i will not wait to learn the subsequent e-book during this sequence and notice what event those companions will face!

In other at you see for business with usual services from our special processors, there is not distraction at work. Some program about Man and Smith Sales, of cost, is the policy mobi described as Us. The is nice comments are about charged during edge government and already charging books.
