Description

A Victorian fairy tale that has enchanted readers for more than a hundred years: the magical story of Diamond, the son of a poor coachman, who is swept away by the North Wind -- a radiant, maternal spirit with long, flowing hair -- and whose life is transformed by a brief glimpse of the beautiful country -- at the back of the north wind. It combines a Dickensian regard for the working class of mid-19th-century England with the invention of an ethereal landscape, and is published here alongside Arthur Hughes's handsome illustrations from the original 1871 edition.

Insightful reviews

Susan Hodgins: As a rule I love all George MacDonald books but this one is very poetic and I found it hard to follow.

Amber: I'm not sure yet what I think about this book. I think I might have to at least glance back through some of it to know. It is an odd book, which I guess is to be expected from MacDonald. I like some of the point he's trying to make at least.... Sometimes I have trouble getting into books like this, especially if they move slowly, and this one did to me at points. Perhaps more thoughts later.

Heather Gregory: I read this as a child, and though I couldn't fully grasp it, I was romanced by it. I've just read this to my son, and I'm sure he didn't fully grasp it, but I understand more and am more deeply entranced.

I think I will read it again someday, perhaps with a grandchild...

Nick: MacDonald achieves one of those lighthearted solemnity during this story that I locate difficult to nail down. As such, it's a fantastically mysterious story, jam-packed with startlingly shiny photographs necessary of a grasp illustrator. The version I learn (which corresponds to the only chosen for this review) had illustrations that have been understated adequate not to hinder the reader's personal resourceful play. A few of these images, like Diamond's trip to the again of the North Wind, function as a type of double entendre for the reader--not of a sordid kind, however the sort that by no means quite nails down how or to whom the occasions are happening. It struck me because the excellent approach to communicate to little ones approximately death, really a troubling one. As I paintings via MacDonald's repertoire, I'm constantly inspired and surprised. He's able to really amazing storytelling and imaginative feats. To learn MacDonald is to discover him part of the furnishings of one's poetic sensibilities.

Bridget West: The message is in the final poem: "The sunlight is long gone down, And the moon's within the sky; But the sunlight will come up, And the moon be laid by. The flower is asleep, But it's not dead; When the morning shines, It will carry its head. When iciness comes, It will die - no, no; It will basically hide From the frost and the snow. Sure is the summer, Sure is the sun; The evening and the winter Are shadows that run." When issues go away, they don't seem to be 'dead' within the soul at all. So, whilst little Diamond dies, he has long past to the again of the North Wind. I had initially notion that it ended abruptly, yet I've got replaced my mind...

Tealen: This was once a unusual little tale a few boy who's associates with the North Wind. it's a sturdy story, if a bit unusual at times.
