Description

When Roxie and her friend, Candice, decided on a girls' night out, she didn't realize the Wulf's Den would be more than she had anticipated. But Roxie soon learned to expect anything. The presence of a super-abundance of super good-looking men surprised her and when the best of the bunch stared at her as if he wanted to devour her, surprise turned to amazement.

Beowulf recognized her as his mate the instant she crossed his path and her scent filled his lungs. But he had to overcome one hurdle. She was not one of his kind—a werewolf. He had waited for years to find his mate and he would claim her even if she was a mortal. He would soon teach her all about werewolves.

Roxie is caught up in strange events. Archaic markings appear on her wrist, and strong forces threaten to tear her away from her love as two other male werewolves try to claim her as their own. Would Roxie and Beowulf be able to keep the bond love had forged or would they lose each other forever?

Insightful reviews

Starry: When Roxie and her friend, Candice, decided on a girls' night out, she didn't realize the Wulf's Den would be more than she had anticipated. But Roxie soon learned to expect anything. The presence of a super-abundance of super good-looking men surprised her and when the best of the bunch stared at her as if he wanted to devour her, surprise turned to amazement.

Beowulf recognized her as his mate the instant she crossed his path and her scent filled his lungs. But he had to overcome one hurdle. She was not one of his kind—a werewolf. He had waited for years to find his mate and he would claim her even if she was a mortal. He would soon teach her all about werewolves.

Roxie is caught up in strange events. Archaic markings appear on her wrist, and strong forces threaten to tear her away from her love as two other male werewolves try to claim her as their own. Would Roxie and Beowulf be able to keep the bond love had forged or would they lose each other forever?

REVIEW: I got to say im alittle disappoited. don't get me wrong, the book was good....It's just that things could have been fixed to make the book better. But overall the rating I would give this book is 3 1/2.

Loved the characters and I might read about wade and royce.

DONT READ FORWARD.SPOILERES.

beowulf is owner of the nightclub "the wulf's den". Roxie came to the club with her friend candice, and falls head over heels when she looks over at the hunk behind the bar.

wade-beowulf's brother

beowulf scares roxie away the first time they meet and later on plans/has to woo her since she's human, and not were like him.

belinda and lucas seems to know its time to tell roxie the truth when they see the tatto that magically appears around her wrist, and knew she has found her mate.

royce is someone that just shows out of the blue, and seems to be interested in roxie....and weird thing is, she feels as if she knows him.

Then the weird thing was, one day roxie dreamed and finally saw the man that was in her dreams..and it was...royce???

Candice is attracted to carl the bouncer of the club wulf's den.

later on gren steals roxie away and gets some of royce's blood and managed to turn her into the wolf. yes, she is the legend that people say. Royce knows that roxie dreams of him and his past times with his old mate alicia, and seeing that she has alicia's powers and looks exactly like alicia in a way, roxie by wolf law is his reborn mate! but roxie, of course, only wants beowulf as a mate.

royce is roxie's granddaughter.

in the end gran and his werewolf friends were delt with and roxie is happy.#16

Yona: It wasn't bad but it was very short and even that it showed shifters in a slightly different way it wasn't anything special and it didn't make me want to turn the pages quickly or to be exited to see how it would end. And as I mentioned the end it was kind of ordinary and boring.

Laurie Bongiorno: 2.3 stars. Wow, so sex and shapeshifters, not much else to this story except stupidity. I couldn't believe how dumb they acted and it was accepted. Like Beowulf telling Roxie you will do what I tell you to do to keep you safe right after she just got person napped under his care and she had to rescue herself?!? Why didn't he have other pack mates watching over her when he knew she was in danger?!? Then he just gave her up?!? Then he went to the fight knowing it was to the death, but he was just going to let him go and keep Roxie in danger, what was the point?!? He also knew he would cheat and bring people with him, but he still went alone?!? No wonder their kind has been dying out - they need smarter leadership!

Anna: i began out considering this publication will be ok however it simply bought worse and worse until eventually through the tip i did not love it at all. Disliked the basis that turning into a mate made it virtually much more likely that acknowledged mate will be challenged for through different werewolves. Royce's visual appeal and his refusal to talk of the relationship among him and Roxie is tense and unnecessary and whilst all is eventually 'revealed' and he nonetheless desires to pursue her it really is simply all a piece too yuck for me. Plus Beowulf simply provides up his correct to his mate which i simply can't stand and naturally finally every thing formerly obtuse within the tale turns into blindingly transparent on the finish in addition to well pat and convenient. simply hated it.

Michelle (In Libris Veritas): A Pages of hope review This used to be certainly one of my first ventures into the area of erotic novels...I know, I know, i am extraordinarily past due within the video game yet provide me a break. while I first learn this i discovered it to be rattling close to

terrible, yet then after I learn extra books i noticed this used to be no the place close to the brink of 'erotic' terrible. There is something that instantly will get a celeb from me, and that is retelling of previous tells...if you do it rather well it may well earn you stars. So the idea that of a Beowulf erotic novel stuck my attention, and after I received over my a little bit prudish methods I downloaded it and dug in. this can be under no circumstances a publication most folks paintings to retell, they usually definitely do not are likely to tread the place Chenery has boldly gone. it is a rather artistic glance at the outdated inform and it has many of the elements. It even has Grendel! Though, whereas i am on that point...I concept Grendel was once an indignant cheeseball. no longer my favourite personality at all. there's a few respectable personality development, that is nice in a publication the place you recognize the intercourse is inevitable. I did have matters with the most personality Roxie. She has a few critical concerns status by way of her personal opinions, I comprehend denial and all..but come on girl! Get it together. Another moderate puppy peeve of mine is whilst a person makes use of a similar note a lot, subsequently it truly is their names. whilst I check with somebody i don't say their identify each time, it's...stupid. They recognize i am chatting with them. The writing did consider a little off every now and then however it did not rather cease me from having fun with it, and through the tip of the e-book it used to be beautiful solid. The warmth point is unquestionably sizzling from time to time and does not disappoint. there has been a tiny half concerning a personality named Royce that made me recoil and fast hate him though. i myself can have performed with no that little addition. Overall it is a short, speedy paced, and stress-free read. i'm going to most likely inspect getting the second within the series.

Teresa: It felt some distance too lengthy for 108 pages. controlled to make it part method earlier than i made a decision i did not care in any respect approximately those characters, so what used to be the purpose of finishing? The intercourse was once scorching however the humans have been dumb!!! Beowulf was once your commonplace overbearing alpha male, Roxie your usual ts/tl female. learn the spoiler reports to determine the few issues i used to be inquisitive about and was once blissful i did not hassle to finish.
