## Description

**#1 *New York Times* bestselling author Nora Roberts presents the second novel of her In the Garden trilogy, as three women must discover the secrets from the past contained within their historic home....**

A Harper has always lived at Harper House, the centuries-old mansion just outside of Memphis. And for as long as anyone alive remembers, the ghostly Harper Bride has walked the halls, singing lullabies at night....

At forty-seven, Rosalind Harper is a woman whose experiences have made her strong enough to bend without breaking—and to weather any storm. A widow with three grown sons, she survived a disastrous second marriage and built her In the Garden nursery from the ground up. Through the years, In the Garden has become more than just a thriving business—it is a symbol of hope and independence to Roz, and to the two women she shares it with. Newlywed Stella and new mother Hayley are the sisters of her heart, and together, the three of them are the future of In the Garden.

Hired to investigate Roz's Harper ancestors, Dr. Mitchell Carnegie finds himself just as intrigued by Roz herself. And as they begin to resurrect old secrets, Roz is shocked to find herself falling for the fascinating genealogist—even when he learns more about her than anyone has before....

## Insightful reviews

Dawn Michelle: This is the second book of the "In the Garden" trilogy. And, I think this was almost better than the first book (which is rare for this author), much more action (thanks to a scheming, thieving, no-good ex-husband), more background on the "ghost" and more "learning to trust and love after being seriously wronged" story.

There was A LOT more swearing and the use of more "colorful phrases" used in this book. A little more than I am normally comfortable with. But I have learned to skim when necessary. :-)

This is Roz's story (she owns the house that is haunted and the garden centre where they all work). She is a very interesting woman and the way she handles things is interesting as well. This was a good story and I am looking forward to the last one to see how this all ends up.

Kathy Anne: The second In the Garden trilogy book. The ghost is showing more of her true insane self as she was before she died and he took her baby from her. She is still singing to the

---

little ones in the nurseries tho she has attacked a couple of adults in a serious way. The owner of the house she truly loves, and after trying to kill her she writes, "I'm sorry in the steam", because the owner has become seriously involved with a man, and she hates men... Still I have to wonder why the adults don't remove their kids from the house as she is getting more dangerous.

She has been told that by the they will not continue to try and find out who she is and what owners great grandfather did to her if she doesn't behave...

Cindy: This series just isn't coming alive for me like most NR works. I know they are formulaic, but that's not my problem here. I'm really just not finding the characters interesting. There are sparks of interest, but nothing lasting.

Jacob Proffitt: I used to be to work out that the romantic couple during this one have been either of their overdue 40s. Are individuals with grownup little ones allowed to begin relationships? I cherished either Roz and Mitch a great deal and their romance used to be a enjoyable one to experience. you may see how they got here jointly from a necessity for companionship yet with a balance of getting safe kinfolk relationships as well. This gave them area to parse their wants and the chance to behave from a spot of power from already having healthy, confirmed family members relationships in place. This used to be an enticing dynamic and one you do not see very often. I was once able to compliment Roberts for her adroit dealing with of an older couple romance, yet up to I love Roz and Mitch, they simply suppose younger to me so I am not yes if she really did pull it off. whereas they are definitely mature, they can as simply were mid to past due 30s as 40+, whilst all is said. Still, that is the factor approximately us previous folks—we do not fairly must be any varied than our 30-something peers, maturity-wise. Or bodily either, if we take simple care of ourselves (which we see either Roz and Mitch doing, actually). If there's a draw back to the book, it is the over-active presence of the Harper Ghost, who we now understand as Amelia. while a egocentric individual is going whacko and sticks round after death, the outcome is not pretty. I am not definite what the purpose of including the supernatural was, here, notwithstanding it did force a number of the tale (not least in that it introduced Roz to Mitch). Still, these tale components may simply have had a greater origin and a ghost with violent traits detracted a bit of from my fun—particularly as we proceed to get a prologue from her point of view to begin us out. particularly now not a delightful option to commence a book... A notice approximately Steamy: just like the first book, this one was once mild at the steam. a number of scenes that were not very long. not like the 1st book, those scenes have been a minimum of well-done.

Jenn: this can be the second one or 3rd time I have learn this book. The motion alternatives up in Roz's tale and that I like her higher as a personality simply because she's an improved lady than Stella was. Stella usually comes throughout as apprehensive and afraid and Roz is extra like I will be damned if someone sees me cry. whereas it nonetheless has Robert's regular lyrical winding writing, it does not meander off into the day after day existence up to it did within the first book. I'm going to say in a few scenes I believe it might have used a bit nearer cognizance to detail. it really is wasn't a grammar thing, yet a reputation thing, almost like how a flustered mother of a number of childrens will necessarily say all her young children names

---

sooner than touchdown at the one she's really attempting to yell at. Sentences that might characteristic and motion or notion to at least one personality did not make any experience except she truly intended one other character. for instance in a single scene Roz leaves Stella and Hailey on her porch, and the scene even offers a number of sentence the place the 2 are speaking with no her, but a few how Stella is conversing within the kitchen with David whereas she's additionally at the porch with Hailey. every thing is smart if the author was once touching on Roz, however the web page says Stella. It occurs once or twice during this e-book and as a reader i discovered it a bit jarring and to be sincere I anticipate larger from Roberts. However the drama in Roz's own lifestyles and her interactions with Amelia, the ghost are much more fringe of the seat and web page turning than these within the past novel during this trilogy and as i have learn it once or more ahead of and nonetheless loved a reread i might certainly say it is a name worthy reading.

Julie: i bought the trilogy as a set. Blue Dalhia, Black Rose, purple Lily. With my Kindle I desire all 3 at once; as i do know i'll learn them anyway. For me Nora Roberts is convenience food. Macaroni and cheese, roast beef, utilizing a recipe you may have used for lots of years. sometimes you alter it up a bit for numerous reasons. definitely 3 girls who turn into shut as sisters is beautiful common stuff for Nora. alternative 3 males back brothers or shut adequate as neighbors to think about themselves brothers. This publication the characters appeared extra interwoven, we knew within the first e-book who purple Lily might star. Had an inkling of the place Black Rose used to be going. hence the experimental swap was once the ghost, in 3 Sisters Island trilogy it used to be witchcraft and a possessed man, within the Gallagher's i feel it used to be a ghost as well. easily positioned it love analyzing and while I simply want a strong sturdy learn I flip to Nora and certainly one of her trilogies to fill me up and make me smile.
