Description

Discovering that he has the potential to be the most powerful mage in a millennium, a young man joins a magic order and is swept up in world-shattering events.

Insightful reviews

Fatbaldguy60: I enjoyed this one. I will be picking up the other two in this trilogy. There was some sense that the two new mages were a bit more powerful than was probably realistic. However, upon reflection, they did not really do major magics, but the visions people had of them being very powerful later were slightly offputting.

I liked the magic system and would have liked more explication about the reasons owl masters are more powerful than hawk mages, and some more background on eagle mages. In addition, one of the powerful old mages was bound to a wolf, but in the thousand year history of the Order, no one else bound to another animal?

At first the writing around the bad guy's identity, and later confusion about different suspects turned me off, but Coe kept it reasonably short and revealed things in good time.

Good stuff.

Malik Strong: This was the first book I read by David. My mother gave it to me to read, and from there I was on my way to an awesome journey of fantasy. It wasn't until years later that I found out it was a series. This is a must read!

Gregory: Good book, decent plot. This is a reread for me, and I still enjoyed it. Cool idea of mages binding to birds.

Brian K: good and fast-paced yet very predictable. i have to learn the following one within the series.

Emanuel: This used to be the 1st myth Novel I read, and that i love It.

Paul: This used to be the 1st ebook of his that I ever read, and it immediately earned my obsession into his different works. i've got a lot admiration for his skill to construct love for characters, after which kill them off unremorsefully.
