## Insightful reviews

Parajunkee: This book scared me silly and stuck with me ever since. If you are looking for a spine-chilling horror novel - go for this one.

Koontz is by far one of the best writers that I have had the privileged of reading, I started reading horror with King, but Koontz sealed my love of the genre.

The book covers the story of a blizzard that closes down a town completely and as the residents deal with being cut off completely - they also have to face something evil that is lurking in the ventilation systems, killing people.

The dramatic suspense is top notch and will leave you sleeping with the lights on for a few nights.

Mike (the Paladin): If you have read much Koontz and have read the forwards, notes etc. you may have run across the fact that Mr. Koontz (at least for a while) was (and for all I know may still be) very...."disillusioned" with Hollywood. They did some adaptations of his work that left, quite a bit to be desired. Still there was also a period (probably before this) when many of Mr. Koontz's novels read (to me at least) as if they were outlines for screen plays.

This is one of those.

My wife and both my kids read this one some years ago (my daughter still holds a prank against her younger brother as while she was engaged in the more tense part of this novel he waited behind a door and leapt out at her...causing screams, mayhem and chaos throughout the house). I didn't read it at that time, but heard a lot about it.

I knew from early on I wouldn't be giving this 5 stars no matter how good. It has that annoying "love story snipping at each other" motif. It carries on throughout the book slowly cycling down as the two participants realize their relationship.

If I want a relationship[ book I can get one. i don't read horror for it...though I know some do.

So...not a bad book. Voodoo involved, nasty creatures, very bad villain...pour together, mix thoroughly and serve. Nothing really new or super original here but reliable stuff.

Enjoy.

Nicholas Beck: Darkfall was a great example of how Koontz can write an amazing horror story.

supernatural, 5. getting to know the character of the supernatural, 6. supernatural become aware of that it is now being hunted, 7. brief assembly of excellent and evil. The first six are consistently solid, Koontz is a master. The seventh is usually lame. The place Stephen King attracts out quantity 7 to the purpose that the reader loses what is going on on, Koontz is just too brief and unsatisfying. Since this booklet encompasses voodoo...I could have cherished to grasp extra approximately voodoo...a little extra examine and touching on could were good.
