## Insightful reviews

Kadi: Nice simple mystery. The sudoku concept gives it a different twist.

Sarah: It was a fairly decent book, if not a little predictable. One thing that really bothered me about the book was how much attention was given to solving the sudoku puzzles in the beginning, even though it had nothing to do with the plot. Is it too much to ask that people just write "I solved the sudoku; it was much too easy and I was finished in minutes"? I don't want to read "I wrote a six in the second box in the first square".

But, all in all, the book was fairly enjoyable.

Wraith Tate: I think my only real problem with this piece was I thought the pacing could have used a little polishing.
