## Description

Poison pen letters lead to murder in this new Hamish Macbeth mystery from M.C. Beaton. When the townspeople of Lochdubh begin receiving poison pen letters, no one takes them very seriously, even if they are full of wild accusations. But Hamish fears that they might lead to something deadly. His instincts prove correct when the town's postmistress is found hanging from a rope with a poison pen letter at her feet. Though it appears to be a suicide, Hamish suspects something more sinister. Attempting to trace the letters, the last thing Hamish needs is any distractions, but soon Jenny Ogilvie arrives in Lochdubh determined to seduce him. Realizing that she is unable to take Hamish's mind off his case, Jenny decides to do a little investigating of her own. Now, Hamish finds himself in a race to solve the mystery of the poison pen letters before someone else dies, including one likely target-Jenny.

## Insightful reviews

Lynne: Much better than 'Death of a Snob' but still nowhere near as engaging as the TV version. This Hamish is 'flame-haired'; Wee Jock is really called Lugs (major shock, that one); Alex is Priscilla; Isabel is Elspeth, and... there's no TV John, Barnie, The Major, Lachlan or Lachy Jnr, if fact there are none of the characters so familiar from the Robert Carlyle vehicle recently repeated on Watch.

Another cheapie from The Works, and fine for a soggy afternoon.

Marilyn: This series is very entertaining. I have been listening to the audible versions in my car and they are great for making commuting time pass pleasantly. (Eliminates road rage!)

Yolanda : I am loving this series of mysteries set in Scotland and the bumbling redheaded Detective Hamish MacBeth. I love the setting of this book and the interesting characters that populate village life here in the North of Scotland and the sexual tension that abounds between Elspeth and him.

In this Mystery someone is sending poison pen letters causing people to die and Hamish must find out who and why along the way fighting off the advances of Jenny.

In Beaton's description of the North of Scotland you learn a lot about this area and the people and customs of this part of the U.K.

Beth: <http://bethsbookreviewblog.blogspot.c...>This used to be the unabridged audiobook on CD variation (5 CDs/5 hours). Elspeth is admittedly starting to be on me. She's the sort of welcome addition to the cast! She and Hamish are nice jointly and it'll be attention-grabbing to determine what occurs subsequent with them. Pat and Jenny have been annoying, yet Jenny used to be simply marginally better. Pat was once only a actual piece of work! I am joyful karma got here again to chunk him within the butt and he received what he deserved! My favourite quote of the ebook was once Hamish's musings on animal documentaries the place the exhibit follows an animal suffering to outlive and also you simply comprehend all alongside that they may not make it. Too perfect!"So, in all, he came across an animal documentary as a lot enjoyable as a snuff movie."It used to be fantastically quick at simply five discs. Graeme Malcolm did a great

job, as usual, with the reading. i am definitely awaiting the following within the series!

Marilyn: i admire the nature Hamish Macbeth and this sequence besides the fact that i've got an issue with this actual book. Hamish recalls dentist were killed in Braikie (Death of a Dentist) and that an aged man, Fred Sutherland, lived above the dentist's office. He questioned no matter if Fred nonetheless lived in that very same place. SERIOUSLY??? definitely Hamish has discovered plenty of useless our bodies in quite a few places, yet HOW could HE HAVE FORGOTTEN that Fred used to be killed now not lengthy after the dentist??? the place ARE THE replica EDITORS??? WHY cannot authors maintain song of the tales they've got created?

Joseph J Vandermark: a very good read.very enjoyable. an exceptional tale and a superb plot. a needs to read. it is outstanding how Hamash will get into such a lot of romantic situations.
