Description

No one knows wedding cakes better than the owner of Boston's hottest cake boutique. Lauren Gallagher is a pro at helping brides and grooms pick out the perfect Big Day dessert. She also has a talent for predicting which marriage will last and which is destined to crumble—simply by observing their cake selection process. Her latest prediction, however, is anything but sweet. Unless her marital Magic Eight Ball is off, one of her best friends is about to tie the knot with Mr. Absolutely All Wrong. But while Lauren's trying to prevent a potential mismatch, she's got her own problems—involving an ex-boyfriend, his new fiancée, and the cake of Lauren's dreams.

Insightful reviews

Eli: It's not the book's fault that I'm tired of reading about the petty, mean, self-indulgent antics of characters. There weren't any glaring grammatical errors. In fact, I think the book's well-written, but that was obscured by my disappointment in the actions of the characters.

Michiyo 'jia' Fujiwara: *Beberapa orang memimpikan sukses..sementara lain yang terjaga dan bekerja keras untuk itu..*

Lauren Gallagher mengajarkan satu hal..PHK bukan akhir segalanya..karena ia dipecat dari perusahaan tempatnya bekerja ia bisa menjadi pengusaha sukses kue pengantin terkenal di Boston City..Vera Wang-nya kue pengantin: Lauren's Luscious Licks. Nikmatnya jadi entrepreneur..dan repotnya jadi calon pengantin..

Ms: What really drew me to this book, is the fact that the author goes into such deep description about wedding cakes, that I found my mouth watering at every page. It made me want to ask cake designers if some of these flavors are actually available--and I've gone so far as to do that, since I am currently in wedding planning mode. Some of the chapters are over-enhanced with lots of cliché analogies, and the situations that the main character finds herself in tend to leave you with a "duh" response. However, it's short enough that you hardly find the time to be annoyed, and instead can enjoy the premise of reading about a cake designer.

Debi: proprietor of a cake boutique, Lauren is ready to expect what will final in accordance with their selection of marriage ceremony cake. yet then her top friend's collection of cake turns out doomed for catastrophe and her ex-boyfriend exhibits again up in her life.Really loved this book. Amanda: A girly ebook that's excellent for a by-the-pool read. i really rather enjoyed the finishing and the general thrust of its moral. Note: it will make you hungry for butter cream and all different sturdy sugary things!
