## Description

Author Barry Denenberg brings us into the whirlwind that is the life of Princess Elisabeth of Austria. A free and impetuous spirit, Elisabeth is chosen at the age of fifteen (over her older sister) to be the wife of Franz Joseph, Emperor of Austria. From that moment on, she is thrown into an intimidating world of restrictions and tremendous responsibilities. Feeling lonely and alienated, Elisabeth is forced to rely upon her own personal strength, which eventually leads her down the aisle and into an uncertain future.

## Insightful reviews

Ashwise: An interesting and fictional look at the future Austrian Empress.

Samuel: Sometimes when I read The Royal Diaries series I get most men won't pick it up because it says words like "princess", "royal", "diary" but look past that and realize these women had extraordinary lives and some, like the title character, die in an assassination. These are not the type of books for girls who think your life is easy if you're a princess (or similar titles). There are at least three other books in the series where the female monarch is assassinated or beheaded; something Disney would never allow in a princess life of false joy. Good book for historical value lousy book for your princess fantasy.

Elaine Shipley-pope: I actually sorta like the royal diary books. I really enjoy historical fiction especially royalty before the 1900s. These books are geared towards a slightly younger age group but as I didn't know very much about Elisabeth I was still interested through out the whole book. This one covers the months leading up to her marriage.

Jaymee: I loved this ebook and she's a very attention-grabbing character. The ebook really inspired me to seem extra into her tale and lead me to monitor the Sissi Trilogy starring Romy Schneider. It used to be striking yet truthfully i locate slightly lacking. notwithstanding a assessment for that motion picture is not what this is often for. What i actually love concerning the Royal Diaries sequence is they regularly accompany it with the epilogue. Which i locate is most valuable to grasp what occurred after the diary entries. Also, they comprise the genealogy of the royal and what occurred to the quick family members that she built.

Oksana: Possenhofen, Bavaria Tuesday, July 12 1853, the tale starts off out with Elisabeth's (Sisi's) older sister Néne getting an offer from the Emperor of Austria. at present he was once believed to be the main eligible bachelor in all of Europe. As we stick with the times in Sisi's diary the times at Possi flip from stress-free to chaotic and shortly Sisi, Néne, and Ludovica (their mother) go away to undesirable Ischl. because the vist maintains the unique plans move with love and issues change. Elisabeth the Princess Bride is set love, family, and sisters.

Alexa: Disclaimer: I purely scanned the final half, so possibly it received higher and that i neglected it. However, the truth that I basically scanned it says really a lot. At first, i actually concerning Sisi simply because i am an analogous girl: i love my head within the clouds. yet because the e-book went on, I received bored and frustrated along with her simply because I
