Description

Once upon a time, Claire Lewis dreamed she would take her camera to war zones to document political upheavals and expose grave injustices. Fate led her elsewhere. And while she might not be on assignment for *The New York Times*, her current job carries its own dangers: Claire is a wedding photographer. Her world is populated by stressed-out brides and the mothers who reared them, grooms who seduce bridesmaids, brides who change their minds, pass out, or dance on tables in tiaras, and the occasional couple who are truly in love. If you told Claire that you thought being a wedding photographer was glamorous, chances are she'd laugh and give you a list of reasons why it is *not* glamorous. What it *is* is unpredictable, funny, demanding, moving, and full of spontaneous moments that cause one to question the nature of love and relationships. As Claire says, it's all that *and* it's never dull. What more could you ask for?

Told with great wit and exuberance, this memoir is a hilarious and touching account of one woman's adventures in a career that she never saw herself in, and of how she braved those waters while also managing to fall in love and have a wedding of her own. A delightful, insightful read, *Exposed: Confessions of a Wedding Photographer* will make you see weddings in a whole new light.

Insightful reviews

jessica: For anyone who thinks wedding photography is glamorous and, well, easy . . . read this book. As outrageous as some of these stories are, having photographed a few weddings myself, I actually believe they are all completely true.

Frances Johnson: Interesting book, funny book about a wedding photographer.

Julie Stevenson: I had the privilege of meeting the author, Claire Lewis, when David and I were in Sonoma County for our first anniversary. We were at a little wine shop in Cloverdale, CA and Claire's book was proudly displayed there. The book was already signed by her and I happily purchased it. The owner of the wine shop advised me that Claire was in town and she called her to come and see me. I wanted to meet Claire and chat about her book and her experiences with book publishing. I could not have met a nicer soul than Claire. She was so bright and bubbly and happy to come to see me. She signed a personal message in my book and we chatted for a while. Six years later, I was going through a box in my garage and it was filled with my books, one of which was Claire's, so I immediately put it in my stack to read (on the top of course). It was a very quick read with humor about weddings mostly and what a photographer experiences

to shoot a wedding. She also peppers it with little stories about her personal life and how it mixes in with her clients and their special days. It's a quick read and quite an enjoyable one. I highly recommend it. Claire is very talented and truly a warm and welcoming individual.

Pam: i've got no notion why I selected this publication as it's not that i am sentimental approximately weddings or perhaps attracted to them. i assume it was once since it is the memoir of a photographer. i used to be stunned how a lot I loved Claire Lewis' e-book that is jam-packed with quirky people, a few great and a few now not so nice. I hugely suggest this e-book as Claire Lewis has many pleasant stories to tell.

Dana Cheryl: i have not laughed out loud like this in a long, lengthy time. the writer condensed 20+ years spent as a marriage photographer right down to approximately three hundred terrific pages. Readers wake up shut and private with the good, the bad, and the gruesome facets of the yankee marriage ceremony industry. a number of the tales have been candy and relocating whereas others actually had me sitting with my mouth striking all agog as no matter what may get it wrong did move wrong. upload in to the combo a fit heaping of the author's existence tale and it makes for one amazing read. i would suggest it to anyone. particularly for these making plans a wedding. Take heed my friends! :)

Chris: This used to be a pleasant gentle read. It makes you cheerful to imagine that there are humans in the market who're far more obsessed than you are, and that there are great those that may help them to have the easiest day attainable no matter if they're being unreasonable.
