Description

Francis Morgan, a wealthy heir of industrialist and Wall Street maven Richard Henry Morgan, is a jaded young New Yorker. When his father's business partner Thomas Regan suggests that Francis take a holiday in Central America, ostensibly to search for the treasure of the Morgans' legendary ancestor, Francis thinks it's a splendid idea. But he never suspects what adventures await across the border - a surprising meeting with a distant relative, imprisonment on a murder charge, a daring escape, a perilous journey through the Cordilleras following an ancient Mayan prophecy, the Valley of Lost Souls with its mystic queen, fantastical treasures and, of course, the love of a beautiful stranger. Meanwhile, back in New York, a cunning enemy is positioning himself to destroy the Morgan fortune. Francis must get back in time to thwart the takeover and save his family's business.

Insightful reviews

Andrea: - I might be biased, because this book is one of those spell-binding gems that stole my heart when I was a kid

- Who doesn't like a tale of adventure and treasure seeking? This book right here has it all, including secret passages, deadly traps, old map... Indiana Jones, eat your heart out

- London writes great women. Considering that the novel was published in 1911 both Leoncia and the Lady Who Dreams feel modern, and there is practically no sexism so typical in literature of that period. His heroines are feminine and admirable, but also are strong-willed, brave and opinionated. After reading Hearts of Three, I sincerely believe in London's utmost respect for the opposite sex. I doubt that he considered females complete equals to males, but it seemed he held opinion that women had a natural power over men to which it was a virtue to submit. Does that make sense?

- This book needs to be published again! Why in the world is it out of print?!
