Insightful reviews

Bill Garrison: After reading INDELIBLE by Karin Slaughter, I will have now read all of her novels. I realized after reading that I always liked the character Jeffrey Tolliver, because he seemed to be the only normal character of the bunch. Well, not after reading this book. It is Tolliver's turn to have his sordid, twisted past revealed. The novel opens with a horrific shootout at the police station where kids are taken hostage and cops are killed.

With the hostages in a standoff, the story skips back in time to when Jeffrey and Sarah Linton were dating just a few months. They take a vacation, but on the way, Jeffrey takes him to his home town, a place he hasn't been in years. At first, this part of the novel dragged on compared to the excitement of the hostage situation, but soon, Jeffrey's childhood friends are involved in murder, and Sarah is there to do the autopsy. The rest of the novel is primarily set in the past, where Jeffrey and all his friends seem to have secrets.

I didn't really like the skewering of Tolliver. Slaughter really is hard on her characters, almost to a point where it is unrealistic. I mean, does EVERY SINGLE CHARACTER have to be self-destructive. This holds true for her future novels as well. In this novel, Jeffrey seems to crumble at the prospects of facing his own past. Lena is in the clutches of a boy ten years younger than her. Sarah is easily swayed by others' opinion Jeffrey. No one seems to be able to stand up and just do the right thing.

This novel almost has too much drama for me. But, I liked it. I'm familiar with the characters, and enjoy following them from book to book. With this novel, I finally have the complete picture.

Freda Malone: This novel in the series was a surprise. Having the opportunity to learn more about how Chief Tolliver and Sara Linton met and dated was nothing short of intense and was enlightening to say the least. Sometimes if you look into the past and history of an individual; or in this case, a character, you'll find out why certain attributes are ingrained into these characters and how they became the person they are. Phobias, habits, attitudes and notions included.

I enjoyed this part in the series because I am curious about people and their lives. This book gave me a chance to understand and/or relate the characters involved rather than judge them with what little is available from the start. Too often we say, "I hate you, you're a bad person"....instead of saying "I like/love you, but hate what you did or the choice you made". I really disliked Chief Tolliver in the beginning but understand him more now since his upbringing was revealed in this novel. Good one!

Karen: Great to get the story of the beginning of the relationship between Jeffrey and Sara. Their younger selves were kind of annoying, though, with all the secret-keeping and such. Perhaps relationships where people have a lot to hide from the other are like that??!! Not very adult of them, but they got through it all and my overall opinion of this book was that it was very good. It has to be hard to write a book in two different time frames, and keep everything straight, and to make sure that the reader can do the same. Karin Slaughter certainly succeeded in that,

and she surprised me again with her plot twists!

Jennifer: This was once truly a re-read. I went again simply because I had ignored the 1st three within the provide County sequence and determined to maintain going.

Dotti Elrick: an outstanding addition to at least one of my favourite sequence and favourite authors. Indelible, is in a sense, tales in one. We stopover at police leader Jeffery Tolliver's past, and take care of a hostage scenario happening within the present. Sara Linton, Jeffery's ex-wife, is the cities pediatrician, and half time coroner. She and Jeffery were attempting to get their dating again on track. that is what has introduced her to the police station. Jeffery desires to get married again, Sara does not imagine they want that piece of paper, and needs to proceed on as they've got been. Unfortunately, all hell breaks unfastened within the station ahead of they could do a lot talking. armed males have taken over the station and they're trying to find Jeffery. police officers are shot, a few are killed, there are kids within the station taking a tour, and Jeffery is improperly injured. As Lena Adams will get prepared for her first day again at the police force, she has one more struggle along with her controlling and abusive new boyfriend, Ethan. by the point Frank, her companion will get via to her, the Georgia Bureau of research is already at the scene of the take over. Leaving Lena to play again as much as the recent pictures of the GBI. As Jeffery drifts out and in of sense of right and wrong ness, he recollects the 1st time he took Sara again to his domestic city in Alabama. There she meets his most sensible friends, and their families. yet as so much issues cross whilst Jeffery and Sara are around, they get stuck up in a homicide investigation. Robert, considered one of Jeffery's pals has killed a guy who has damaged into his home. yet as they quickly discover that's merely the end of the ice burg. Robert has many secrets. And the extra time Sara spends with those friends, the extra Sara wonders how a lot she particularly is familiar with Jeffery. And simply what sort of guy he particularly is. because the tale progresses, you know that, issues have been set in movement on that journey to Alabama decades earlier. And it has now get back to round to Jeffery and Sara another time. This was once a really good written book. It is going from side to side from the current to the past, yet you can stick with alongside easily. As with the opposite books during this series, they could all be learn as stand by myself books. the writer supplies lots of again tale so that you don't feel lost.

Karin Slaughter: Sticklers for order who ask "where do I start" studying the provide County sequence have choices. you could choose Blindsighted, that is technically the 1st book, otherwise you can commence with Indelible, that's the "origin story" for Sara and Jeffrey. I continuously write my books in order that an individual can choose up any booklet and understand what is going on and who's who, yet i'm the sort who has to learn in order, so i do know this can be an enormous question. What i love approximately this e-book is you get to determine the place Jeffrey grew up. i feel that figuring out his humans can provide perception into who he's as a man. It additionally exhibits us a Sara that we've got by no means met before--that naive and trusting soul who notion that she used to be going to be the person who replaced Jeffrey. What individuals who have learn the former books understand is that no-one can switch a person. That individual has to alter himself. This is additionally the 1st ebook the place I wrote overtly approximately intercourse among Jeffrey and Sara. I had simply learn Fingersmith and loved the intercourse in that, so i assumed why not. humans looked as if it would like it. But, i glance at intercourse an identical manner i glance at violence: when you can

take it out of the tale and the tale nonetheless makes sense, then it does not belong. that is been my rule from the beginning, and that i confirm even at the present time that the sexual touch among characters says whatever approximately who they're and what their courting is like. If any of you watch the Americans--that scene among Phillip and Elizabeth the place Paige catches them within the act: what a surprising scene! And what a aid to determine that they are fairly jointly this time. at the very least for now.
