MJ Nicholls: For fanatics of Spanish miserablism set in a heartless deterministic universe (i.e. this one), Pascal Duarte is the short novel for you. Duarte's confession, written from prison, is a gorgeous recounting of a lifetime of violent poverty and aimless murder, informed in basic and regularly relocating prose. Cela's paintings is usually keen on the probably never-ending human capability for violence and clash and this brief paintings leaves a strong imprint at the reader with its moments of hair-raising cruelty and virtually insufferable tenderness.

Paula D.v.: I. a. familia de Pascual Duarte ha sido un libro distinto a los que suelo leer. Me ha gustado, aunque tampoco puedo decir que ha sido mi libro favorito. Lo que más me ha gustado de I. a. novela ha sido el personaje que le pone título, Pascual Duarte. Este personaje es muy curioso porque, como él mismo dice, no es malo pero no le faltan razones para serlo. Al pobre hombre le pasan muchas cosas malas que yo creo que le van volviendo loco, esto hace a los angeles novela muy realista, porque probablemente es lo que le pasaría a alguien en los angeles vida real. Los puntos negativos que he visto es que cambiaba muy rápido de tema y eso te podía conducir a perderte fácilmente, en alguna ocasión he tenido que releer alguna parte porque no me estaba enterando bien de qué hablaba el libro. Se lo recomendaría a todo aquel que le guste leer, especialmente a gente adulta (o al menos no a niños) porque creo que entenderían mejor el argumento de los angeles obra y el lenguaje empleado en el libro puede ser algo pesado para niños y adolescentes.

Voldemort: Can an individual fall in love with a book? I did. Twice. However, i've got this problem. at any time when i admire someone/something I persuade myself I DO NOT. most likely due to a few fucked up beliefs I in-built my head due to the fact childhood. So this can be me, pretending I didn't fall for Jose's commitment "I commit this version to my enemies, who've helped me loads in my career" or Pascual's first sentence "I am no longer sir, a foul person, notwithstanding in all fact it's not that i am missing in purposes for being one." This is me telling myself the prose was once pessimistic with an agonizing philosophy which can't be real; it's a fatality we basically locate in books. mom Nature and Father God deal with us better. this is often me trying to detest Duarte as a result of his nature that's so like ours yet nonetheless last uncertain in entrance of that Hamletian question; are we born evil or will we develop into one via life? this can be me defining sin satanic, purely simply because I dwell via society's concepts. yet what if killing is a advantage in one other world? What if our principles of values and fact are easily a mirage, formed from what we predict is right? this can be me,

placing up my head a sparkly air of mystery which lightens these darkish uncooked wishes of being owned out and in via one other human's flesh. this is often me believing killing isn't really effortless like Duarte thinks, me jogging head excessive with out counting each useless organism below my feet. i suppose this is often me attempting to hate the ebook for its horrendous, atrocious translation (specially the dialogues); me upset simply because i may by no means despise Duarte strongly enough, me fearing the silhouette of somebody i'll become, me dreading my end...
