## Insightful reviews

BiL: Wow, I found the first edition of this for a dollar at the used bookstore down the street from my house. A fun little historic 60's literature to read indeed.

Rick Muir: If you can overlook the LSD references, there's some really interesting philosophy in this little book. I pick it up now and then to remind myself of the possibilities of this world and how the definition of infinity has gotten smaller in today's world.

Doc: Possibly the thinnest most entertaining essay on enlightenment ever written. 80 pages of purely great stuff!

Robin Clark: we're equivalent beings and the universe is our relationships with every one other. Thaddeus Golas. There it is! Enlightenment! So, so simple. So profound. Easy, simple. Now chill out for the remainder of your lifestyles and be happy.

Uvindex: "Si reconocemos que l. a. fealdad está siempre en nuestro interior, seremos libres de crear los angeles belleza." Thaddeus Golas. Este ensayo filosófico entre otras cosas destaca los angeles naturaleza twin y por "niveles" del individuo, el universo creado a partir las interacciones entre los seres, que dependen del grado de exteriorización del mismo, donde ya no existe más el yo, el ego, sino un intercambio de emociones, donde el amor es el ingrediente crucial que nos hace vivir plenamente. Es un libro ampliamente espiritual, donde antepone una vida ascética sobre vida racional, incluyendo drogas y demás chucherías como medios para meditación, actividad creativa y para alcanzar l. a. iluminación verdadera. Aunque con explicaciones algo pobres de los términos introducidos a lo largo del libro, algunas repeticiones, algunas principios que considero contradictorias, y "consejos" con los que radicalmente estoy en desacuerdo, es sin duda un libro interesante con varios puntos rescatables. P.S. En resumen, este libro te enseña... Sé amoroso, déjate llevar y united states drogas. xD

Wallwaster: a few great bullshit approximately vibrations and every thing being one. The publication has a few great elaboration on Alan Watts' analogy of lifestyles and tune though, yet except this part, it is not worthy reading: "Music indicates us the way to preserve excitement and ecstasy. in most cases we have a tendency to consider a second of euphoric cognizance as insufferable and very unlikely to continue. It slips away after which we pursue it again. It does so simply because we're unwilling to permit it go, we're unwilling to conceive of being clear of it. but when we take the instance of music, letting pass of 1 word to listen to the next, then our excitement could be consistent even though the vibrations change."
