## Description

Little Wolf's Book of Badness Little Wolf has been behaving too courteously, so his parents send him to his uncle's Big Bad Wolf school to learn to be a proper wolf. Full description

## Insightful reviews

Dani: Very cute

Cami Putnam: This is an adorable story about how little wolf is sent off to learn how to be bad by his uncle the BIG BAD WOLF. He doesn't really want to be bad and is even afraid of the dark. My kids laughed up a storm as we read all of the predicaments he puts his BIG BAD UNCLE into (who is really very lazy) when he is trying so hard to be bad but things just keep turning up good. cute cute book!

Leah: It's sad that I can hardly remember this book, but I can certainly remember thinking it was amazing. I would have been about five at the time, and I read it in an afternoon I spent at mum's work, and loved it so much I typed out the 9 rules of badness on a type-writer! Shows how long ago this was!

I loved the whole being sent to school to learn how to be bad, and I loved that the whole book was simply a series of letters from little wolf to his parents, explaining his adventures. I loved all the spelling errors and how the pages were illustrated to look like individual letters with ink blots and crossing outs, it just made the whole book so sweet and endearing.

I wish I could remember it all, but it was an adorable little book that made me chuckle as a child and I have never seen any fault in it.

Theresa: Little Wolf is shipped to stay at crafty College, Uncle Bigbad's tuition of badness. There, L.W. is to benefit the nine ideas for being bad. lovable story. Little Wolf writes letters to his mom and dad to inform the story. Many illustrations, huge font, short-130 pages. Bits of "Little purple using Hood" interspersed with story. Cute. robust 3rd grade readers-gr. 5.

Anna: Yes! Finally! I do not consider studying one of these brief kid's ebook (my variation is 143 pages) for sooo long... Unbelievable! Despite a truly promising beginning, full of a host of chortle out loud bits, I felt really frustrated toward the part manner point. I could not make myself taken with something in it. greater than that, the final 30 pages have been dragging so tough that I nearly DNFed this little read. You recognize what, I felt relieved instantly after the end line, and do not imagine it is a solid sigh. will not suggest it, yet your children might get pleasure from this publication far more than I did. So it really is up on you to decide. P.S. One confident factor to assert approximately Little Wolf's booklet of Badness, is that I loved how LW stayed actual to himself. Thumbs as much as that. :)

Eliza: It was once relatively funny! The kid's librarian suggested it to me. The ebook is a chain of
