Setting

The setting was interesting. It had rock, Rocky Mountains, and of course a forest. The cats on the quest were in mountains and they went through twolegs territory. The cats in the forest were in a forest and at highstones. It takes place in a day in an age where we tear down forests.

Conflict and resolution

The twolegs are destroying the cat's forest so they have to move. The cats on the journey are stuck with the tribe cats for a while. Then Feathertail sacrifices her life for the tribe and kills Sharptooth. The cats in the forest are still looking for a hero to save them but I guess you'll have to read the next book to find out.

Opinion and recommendation

My opinion is I like the book and that I would recommend it to anyone who likes adventure sadness and action. If you like one those YOU WILL PROBABLY LIKE THIS BOOK AND SERIES. I LIKED THIS WHOLE SERIES YOU MIGHT LIKE IT TOO.

Eve: I first read this book when I was in fourth or fifth grade. I loved how there was the plot twist at the end with Feathertail being the silver cat instead of Stormfur, and her death made me get all emotional, even though I'm almost 14 now. When I reread this, I thought maybe I was too old for the Warriors world, but I was wrong. (Remember, age is just a number!!) I was pulled into the Warriors world, and I remembered why 'Moonrise' was one of my select favorites. I also love the cover with Feathertail on the front-she's so pretty!! I also found something interesting on the cover. It's the six chosen cats trekking through the snow, right? Normal. Only three cats are pictured on the front cover. If you turn it over, there are only TWO more cats. That makes five: Crowpaw, Squirrelpaw, Stormfur, Brambleclaw, and Tawnypelt. Was this foreshadowing Feathertail's death?? Anyway, I recommend this book for anyone who likes cats- but make sure to read the series before this and the first book in this series, Midnight, first!! :)

Aoife: GOOD STUFF! I'm a big fan of the warriors series, so I'm pretty opinionated when I write about them. Not wanting to give to much away, but really awesome and sad and happy and suspenseful!

Shannon Morrissey: I completely loved this book. however it seems, even if i have learn them before, i can't commit it to memory at all. It was once nonetheless enjoyable to learn though, because it was once like i used to be interpreting it for the 1st time again. This one used to be definitely varied - the advent of a brand new team of cats The Tribe of speeding Water. they're determined yet they don't seem to be risky cats, they simply wish rid of Sharptooth. and that i can have sworn Brook or another tripe cat went again with them simply because Stormfur used to be commencing to fall in love with her. I can not help imagine Feathertail's demise used to be a solution for hers and Crowpaw's love simply because they would not have the capacity to see one another after they went domestic (to their new home, now not the only they're in during the first series). all of the same, and it was once sad. however it used to be undesirable how they did not even glance or take into consideration the opposite cats fur, they only immediately took Stormfur because the cat who was once going to save lots of them. i am beautiful yes Feathertail and the others may comprehend what color their very own fur is. what is sturdy and makes you press on is that there is cliffhangers on the finish of approximately each chapter, and it is an important how the tale jumps from various cats pov's (especially including in Stormfurs). I can not help feeling that the dream that Stormfur acquired from his mom Silverstream, used to be a truly vulnerable storyline to have, to make him return to the tribe. I suggest they wasted all that point attempting to break out and whilst he will get a dream from StarClan, he admits that they might desire him and move back. I meant there don't have been a lot of a storyline if that simply had happened. I intended there do not have been a lot of a storyline if StarClan had simply advised all of the cats what may ensue to the forest, rather than making four (turned out to be 6) stroll miles to chatting with a badger; a cats average enemy. Still, they're nice books and i am yes each booklet or motion picture has acquired a plot which may simply be became in

to two pages or something. If the hot tribe hadn't of been brought i am beautiful certain this book, and merely this one, might were boring. They have been already on a challenge once they got here in to a different one, and now it is time to pass home. i'm demise to learn the following publication simply because i actually can't have in mind what occurs and i am beautiful definite that is a superb thing. i believe the characters are particularly tough to remember, I nonetheless most likely couldn't identify all of the cats who went at the journey. Stormfur, Squirrelpaw, Tawnypaw, Bramblepaw, Feathertail and Crowpaw. Well, perhaps i will be able to (and i did not even have to examine the book) yet yeah, and the advent of latest kittypets? i'm wondering the place they are going to all finish up, and i am demise to listen to approximately Sasha and what she has to say, cooped up the place Leafpaw, Mistyfoot, Cloudtail and Brightheart are all being kept. at the very least Sorreltail might be in a position to return and inform Firestar what happened, so long as she wasn't stuck (which i don't believe she used to be simply because she will be within the similar position as Leafaw, until there are extra of the cages in one other room or something). I love the entire assorted cats languages and it truly is enjoyable identifying up what they're saying. Like i have spotted how the kittypets use language like people do in genuine life, they comprehend what cages are even supposing i have but to discover a bunch of cats who really be aware of the be aware "human". They understand their very own species so why now not ours? Anyway, i will not examine a lot else to write down since it was once often approximately vacationing yet i have to say that they preserve me going.

~?~ happinesslife: <http://yourhappinesslife.blogspot.com>...Este segundo libro me ha gustado más, ya que podemos ver como los angeles travesía de nuestros gatos no es todo camino de rosas, se van encontrando con peligros y adversidades que tendrán que aprender a superar juntos, l. a. más curiosa es cuando aparece un nueva profecía de una tribu de las montañas, donde uno de los gatos tendrá que afrontar su destino.

Adam Veeseer-Johnston: "Warriors: Moonrise" by way of Erin Hunter Personal Response: i think that the publication was once written very well. the writer captures the reader in a chain of occasions and switches teams frequently all through chapters. To me the e-book used to be an outstanding learn and that i suggest that any one learn it. Plot: a few occasions that occur within the booklet are as follows. a gaggle of warriors wander via their wooded area after which via a urban to discover a prophet of a sort. They achieve this prophet to benefit that she's truly one in every of their so much rivaled species, a badger. She tells the soldiers the entire prophecy and is helping them make their as far back as the woodland yet tells them to take a short-cut in the course of the mountains. as soon as into the mountains there has been no going back, yet they went anyways. midway throughout the mountains they stumble upon a tribe of warriors. The tribe tells them to stick and relaxation for so long as they should after which inform them a prophecy in their own. Unbelieving the soldiers depart the tribe yet come again to save lots of them of their time of need. as soon as accomplished with their dilly-dallying, they eventually went underway to return to the forest, with out their fallen comrade. at the different part of the forest, Leafpaw and her spouse are within one other clans territory and are being chased by means of a few of their warriors. at the border in their extended family the pursuers shrink back and return grumbling. again at camp starvation has afflicted the clans as a result the large creatures that roam the woodland destroying everything. attempting to determine why this is often taking place and why cats are disappearing, Leafpaw units out to a payment of 2 legged creatures and is captured. Characterization: Stormfur, Brambleclaw, Feathertail, Tawnypelt,

Leafpaw, Squirrelpaw, Firestar, Cinderpelt, Crowpaw. Firestar is the extended family chief of Thunderclan and is the daddy of Squirrelpaw and Leafpaw. Stormfur and Feathertail are siblings on a trip to satisfy a prophecy in addition to 4 others. Brambleclaw is a Thunderclan apprentice despatched on a trip to meet a prophecy given by way of Starclan, in addition to Tawnypelt, Squirrelpaw, and Crowpaw. Cinderpelt is the medication cat for Thunderclan, and is education Leafpaw to take her place. Setting: the tale occurs in a forested region somewhere. The two-legs, humans, are destroying the wooded area to make their towns and cities utilizing heavy machinery. Theme: the writer provides the topic of regularly do what's correct on your center and never what others inform you. The subject is essentially asserting do not fall in to see strain and comprehend whilst to assert "I need to do this, without or with the others." I suggest this ebook to an avid reader of a truly lengthy series.
