Description

The response to Nancy Pearl's surprise bestseller *Book Lust* was astounding: the Seattle librarian even became the model for the now-famous Librarian Action Figure. Readers everywhere welcomed Pearl's encyclopedic but discerning filter on books worth reading, and her Rule of 50 (give a book 50 pages before deciding whether to continue; but readers over 50 must read the same number of pages as their age) became a standard MO.

Insightful reviews

Book Concierge: I read the original and this sequel both in one day ... or I should say I was mostly skimming by the time I was on the second volume. Good reference to have when I'm wondering what to read next.

Oh, and I have adopted the Nancy Pearl rule - EXCEPT when it's for book club or a class - take your age and subtract it from 100. That is the number of pages you must read before you give up on a book. (If you're 100 years old you may judge a book by its cover!)

Julie: This would be a second book that follows the author's other, called *Book Lust*. They are both GREAT little books. They divide up books by many different categories and give you lists of lots of different types of books to read for different moods, genres, areas of the country, etc . Good little reference books and would be great for in person book clubs to use .

Shellie (Layers of Thought): Original series review posted at [Layers of Thought](#).

If you love books and lists, and are an eclectic reader, you will adore this series. Each recommends books which are organized into themes, with great little descriptions; all are softbound, small and easy to read.

Thoughts: Nancy Pearl, librarian extraordinaire, has created this series of books (with the fourth to be released in a few days - its one for travelers) which contain organized collections of book recommendations, labeled under catchy little categories. Inside the categories are enticing snippets of the books in a very readable format.

The books are small and easy to handle with a soft cover. With her "lust" of reading, Pearl shares with the reader the books she loves and those which she knows about, creating more desire and adding to your ever expanding book list. I spent hours perusing these books, enjoying her fun and interesting recommendations.

Better yet, Nancy has a variety of philosophies which she labels "Pearlisms". One is the "rule

of fifty” which I have used recently when abandoning a book (Pride and Prejudice – sorry Jane). What I love is that she gives you permission to stop reading a book when you are not enjoying it. It’s a free “get out of guilt card”. Here is her rule:

If you’re fifty years of age or younger, give a book fifty pages before you decide to commit to reading it or give it up. If you’re over fifty, which is when time gets even shorter, subtract your age from 100—the result is the number of pages you should read before making your decision to stay with it or quit. Since that number gets smaller and smaller as we get older and older, our big reward is that when we turn 100, we can judge a book by its cover!

I loved these little books and will be purchasing every one for my personal collection. 4 stars for *Book Lust* and *Book Crush*, and 4.5 stars for *More Book Lust* – since it has so many books I had never heard of. Highly recommend resources for teachers, librarians, and book lovers within every genre.

Karry: one other superb examine books with 1,000 feedback and typically a bit synopsis to appeal to you to choose the booklet up and find a new event in reading. Pearl is seemingly an avid reader and has plenty of suggestions. a few of them, naturally, i do not accept as true with yet MANY others i've got learn and could recommend nearly as good books. i'm going to search for extra from her.

Drucilla: extra nice recommendations. I had truly learn a number of of the recommended books this time.

Lisa Vegan: on no account accomplished and it may be downright difficult while “perfect” books are skipped over of a few of the sections. yet it’s how to locate new books, and new authors also, and will raise sturdy stories of books already read. And those publication Lust books are an stress-free learn - I learn them disguise to cover. might suggest creating a precise checklist of books to learn as examine them, that is anything I didn’t do. assorted categories lists with diversified books than the 1st e-book Lust book. exhibits how simply there may be a number of e-book Lust books within the future.
