## Description

In the wonderfully erotic bestseller, *Too Much Temptation*, readers fell in love with two brothers -- dark, sexy Noah, and his roguish, younger brother, Ben -- as Noah followed his heart's desire. Now, acclaimed author Lori Foster returns to their world, this time exploring the sensual longings, secret wounds, and hidden needs of irresistible Ben Badwin, a man for whom there is never too much of a good thing...

### He Wanted Her Completely

A confirmed bachelor, Ben Badwin has had his share of women, and he likes them as sexy, wild, and uninhibited as his desires. Nothing at all like the brash, dirt-covered, wholesomely cute woman who just strutted into his diner for a cold drink. But something about Sierra Murphy's independent attitude makes Ben's fantasies run wild. He'd love nothing more than to dazzle her with his prized sensual skills...to make her want him as badly as he suddenly wants her...

Sierra has her own plans -- and they don't include getting involved with a notorious Romeo. Fiercely independent, with her own landscaping business to run, she makes it perfectly clear that she doesn't need a man to help her, not even one as sinfully tempting as Ben. But the more Sierra keeps her distance, the more Ben wants her. And the more Ben wants her, the harder it is for Sierra to steer clear of his teasing touches and enticing eyes. To get him into her bed -- and out of her system -- Sierra makes him a proposition: she'll sleep with him, but for one night only. Now, it's up to Ben to turn one night of pure ecstasy into a lifetime of passion...

## Insightful reviews

Kathy: Setting: town of Gillespe (probably a southern town); his hotel (bar/restaurant & his converted rooms); her landscaping lot across the street, with its tiny house; some of the sites they are landscaping

Theme:

Love; trust; putting past behind one; commitment;

Characters:

Ben Badwin: at 16 his mother swept off her feet by the rich college boy, and when she came up pregnant he walked away; well loved by his mother; at Ben's age 14, his father died and his grandmother hired detectives to look for illegitimate children -- Ben found second, and when he would not take a paternity test to prove who his father was (his mother's word should be enough), Agatha does not formally claim him and their relationship was a bit adversarial; but he met and became fast friends with his older half brother; he loves women -- talking with them, touching them, flirting with them, making love to them -- and he's charming; he proudly is

making his way without his grandmother's money or influence, successfully upgrading the hotel/bar/grill. He's a bit bored with easy women, thinking he needs a challenge, and from across the street he spies Sierra...

Sierra Murphy: uptight minister's rebellious daughter; when 17 caught naked in the sheriff's 20 year old son's car and her father kicks her out and the sheriff forces his son to marry her, to stop the town's tongues from wagging; he hits her for the first time when they had been married only 2 weeks, and continued to slap & hit her, bruising her, but not worse while everyone ignored it; she is finally fed up, and packs a suitcase and heads out of town, to be picked up by Kent – who throws her a lifeline... her ex-husband used his family's influence to foreclose bank loans on her father and friends, to chase away his congregation, and to make life tough in punishment for her leaving him. With money inherited from dad when he passes, she moves to another state and starts her own landscaping business. She has worked very hard to be independent, self-sufficient... and her best friend is Kent.

Kent Monroe: 40ish; daughter in college; his loved wife passed, and he was lost until one day he was driving through a small town, and saw a bedraggled Sierra (with a cut lip) dragging a suitcase, and his heart went out to her... he persuaded her to allow him to drive her away, they stopped for lunch, and became best friends. Not having anything better to do, he joins her in Gillespe, working and supporting her – like an older brother... and he is swept away when he meets Ben's mother Brooke – doing the landscaping work slowly at her house, giving her time to be comfortable around him.

Brooke Badwin: Ben's mother; never serious about a man; loved and cared for her son and did not interfere with his relationship with his grandmother; she is attracted to Kent, finding excuses to wander into the yard to talk with him (funny scene when she brings him ice tea, and he takes off his shirt, and she stares then runs back into the house - taking 2 days to get the nerve up to speak to him again...

Agatha Harper: she finally acknowledges Ben as her grandson, and wants him to accept a legacy through her will, and is at a loss as to how to convince him of it... and through Grace (last book), through Sierra, and especially through Brooke, realizes he needs the words that she loves and respects him... The book ends with her realizing now she is finally rich – because of her family...

Noah and Grace: in enough to tease Ben, throw business Sierra's way, and help both acknowledge their feelings for the other.

Griffin -Sierra's ex husband- he tracks her down... calls a few times... shows up... just as Sierra was starting to accept Ben's attention... but pulls back because afraid he will harm Ben's business. He threatens her once... and comes back a 2nd time, just as she realized she loved Ben... and when Agatha steps in to help Sierra, he pushes her and speaks disrespectfully to her.. and Ben hits him a few times and Agatha calls the police, and her lawyers make his life tough.

Summary:

Ben mostly knows he needs to be with Sierra, and bit by bit realizes that he loves Sierra. He is

---

upfront with her about his feelings/attraction for her, but respects her boundaries - though he pushes those boundaries – getting her used to his presence (bringing her food, helping her unpack) and getting her used to his touch and kisses. And he learns that he can derail her with sex (or at least the suggestion of sex), getting her to cooperate where her first instinct is to say no... at one point, when she decides sex with him would be nice, she thinks how to “enjoy him, without getting emotionally trapped.”... which doesn’t last too long.

And as his feelings deepen, he wants her trust... and pushes her to give it to him... until she does.

And at the end, she turns the tables on him... when she, Agatha, Grace, and Brooke decide the wedding will be in 7 months... and she distracts him with sex, overriding his objections. ahhh

This was a cute, hot story, but it doesn’t really stand out in my head.

I liked Sierra a lot, she’s feisty, trying to live on her own and protect the people around her, not wanting to fall in love. Ben is insistent, and loyal, and a sweetheart. Their attraction is instant, but it worked for me. They were very good together, hot and sweet, and I liked them.

There was also Sierra’s friend Kent, who was good to Sierra, and who liked Ben’s mother. Their relationship got some attention, and I liked how Kent was with her, and how good that was. Ben’s Grandmother showed up a few times, and I liked her, especially at the end.

This was a very sweet, hot, easy read. I enjoyed it.

The BookChick : Maybe it was just me. But this book was really kind of blah. It seems as if Ms. Foster tried to add a level of depth to the book with Sierra's challenges with Griff but sadly this book missed the mark. It lacked the bite of some of the other books. The conflict was not complex enough to keep me interested in the story. It was an okay read but nothing to write home about, IMO.

Bekah: i am quick changing into a Lori Foster fan which simply thrills me! you cannot have too many authors on your again pocket. this can be the second one and final, I believe, booklet int he Brava Brothers series...not the other brothers that i am acutely aware of. whereas I nonetheless was once unsatisfied with finishing of this book, I enjoyed every thing else approximately it. Ben is an grand hero and Sierra's tricky independence was once refreshing. She definitely had reason for her prickly external and it was once loads of enjoyable observing Ben fight with the problem of destroying her walls. The steam used to be very hawt and the tale moved alongside nicely. i will be checking extra out via Lori Foster and i am satisfied to take suggestions from her lovers at the path I may still go!Find my stories at web page 317.
