Christine Rebbert: My therapist instructed this booklet as a source -- having simply hit the massive 6-5, attempting to come to phrases with aging (who'da thunk?!) and what is next... She herself had now not learn it in really your time -- the e-book got here out in 1995. do not WASTE a while with this book... much has replaced on the grounds that 1995! In 1995, child Boomers have been almost about to hit their 50's, and as we BB'ers have performed in such a lot of different areas, we've got been rewriting the publication each day considering the fact that then. This SO wishes revision -- like, oh, yeah, the hormone alternative remedy that's touted right here as giving us ladies our vim and power again has now been came upon to kill us! The booklet is replete with tales that have been most unlikely to spot with. all people the following techniques getting older narrow and rich, it seemed; oh, might that we could... a man has a middle assault and, knowing his mortality, quits his task to head paint in Tuscany -- yeah, that is an alternative for us all... An getting older girl is going to the Amazon every year to seek out new medicinal plants. There quite was once not anything concrete to carry on to... and because the years play out within the book, each one decade will get even shorter shrift -- 60's, 70's, 80's -- simply platitudes... i'm wondering how outdated Sheehy herself used to be while she wrote this, and what her tackle being sixty five will be today! Turns out, my therapist was once very embarrassed to have advised this book...
