## Description

Torak circled the fire and Thiazzi came after him: slowly, cracking his whip, playing with his prey as a lynx plays with a lemming. Torak was exhausted. He wasn't going to last much longer.

When he was outcast, Torak was the hunted one. Nine moons later he becomes the hunter, when he vows to avenge the killing of one of his closest friends.

Racked by guilt and grief, he follows the killer into the Deep Forest, where the World Spirit stalks the hidden valleys as a tall man with the antlers of a stag. But there is a rottenness at the heart of the Forest, for its clans have succumbed to the lies of the Soul-Eaters. Here Torak must face fire, war, and overwhelming evil.

The fifth book in the Chronicles of Ancient Darkness series, "Oath Breaker" is a story about keeping promises and the true cost of vengeance.

## Insightful reviews

Kiky Kartini: Buku kelima dr Chronicles of Ancient Darkness.

Kisah tentang hutan kuno nun jauh di pedalaman, dengan kaumnya yg sangat fanatik mengikuti ajaran yg mereka anut dan menerima bulat2 apa yg diperintahkan. Dan Torak harus menghadapi kaum seperti itu untuk menjalankan sumpahnya dan melindungi hutan.

Michelle paver benar2 seorang penggemar alam liar, observer dan penulis yg hebat. Seru juga ngerjain sesuatu yg benar2 dicintai seperti itu, dan sekaligus menghasilkan uang!

Charity: In my review of *Outcast* (or was it *Soul Eater*? They're all kind of mushing together in my head now), I said that I hoped the series would turn into more of a coming-of-age story. In *Oath Breaker*, it has---with a vengeance. Everyone is coming of age in this book---Torak, Renn, Wolf.

The plot in this one is a little less engaging (and a little more confusing) for me. Paver's descriptions of the forest are less vivid, and I didn't feel as much of a connection to the setting as I had in earlier books.

The characters' motives are a little flimsy, too. There was this whole vengeance-oath thing that felt pretty red-herringy, and I couldn't get a good feel for why anyone was doing anything they were doing. Some parts reminded me of the episode of *The Simpsons* in which the teachers (represented by Mrs. Krabappel) are trying to get more funding for the school and Principal Skinner is saying there's no money for it. When both spoke at a very well attended PTA meeting, the audience would get 100% behind Skinner when he was at the podium and then swing 100% to the other side when Krabappel stepped up to the microphone. The Aurochs and the Forest Horses seemed a lot like that in this book. "Let's fight each other!" "Let's fight the Open Forest!" "Let's fight the outsiders!" "Let's just go home!" I basically didn't connect with any

---

of the characters really well.

There's also something vaguely sexual about spirit walking in this book, which I hadn't noticed in the previous books. Maybe it was played up here for the coming-of-age aspect, or maybe I'm just noticing it now and it was there all along. Or maybe it's all in my dirty mind and isn't in the books at all. Whatever it was, I didn't like it so much.

But I liked the ravens in this one (the bird ravens, not the Raven clan, who don't put in much of an appearance), and the wolf pups were pretty sweet. And Renn's kind of coming into her own, which is nice.

One more book to go, and I'm done with this series. I think I'll encourage my daughter to go for some Beverly Cleary books next and get a little break from vengeance and dismemberment and battles to the death. I've not read all of the Henry Huggins books, and I suppose there could be some of that in the later books---Ribsby does seem like a bit of a loose cannon---, but I would be surprised.

Ceria: (2008) Menanti versi Indonesiannya.. Udah penasaran nih ma kelanjutan kisah Torak dan Renn melawan Soul Eater. Kejutan apalagi yang diberikan Paver dalam buku kelimanya ini ya??!!

(2010) Gila... versi English-nya keluar tahun 2008, versi Indonesia-nya baru muncul Februari 2010... Hmm... tapi menurutku yg kelima ini agak kurang seru n kurang asyik dibanding yg sebelumnya... Kenapa ya??

Xander: Now on the 5th booklet of The Chronicles of historic Darkness sequence and once more i used to be thoroughly hooked to this story. I do need to say that the books are beautiful formulaic in that there's one soul-eater that may probably meet his or her lead to each ebook and Torak may be the one to avoid wasting the day. additionally there'll be an occasion first and foremost that spurs Torak into removing one of many soul-eaters and also will insist on going out to conflict them alone. Renn and Wolf will insist on coming and in spite of everything he could not have performed it with no them.Up formerly that has worked, yet being the 5th ebook it truly is donning thin. i believe that at this element Torak can have discovered from the numerous instances earlier than that he wishes assist in order to wrestle a Soul-Eater. This was once why I gave this ebook 3 stars rather than four. in addition to the truth that first and foremost of the story, which was once to establish the cause of Torak to set out, even though unexpected, used to be a bit forced. Torak turns out to lose his mood too speedy and rather than that feeling like a real trait of his, i am getting the sensation that it truly is there to maneuver the tale forward. as soon as I bought throughout the arrange chapters I received thoroughly misplaced within the tale and at one second i really gasped out loud. I will not show what did it, but when you need to comprehend you could ship me a message after you will have learn the book. the advance of Renn's personality and that of Wolf have been extra fascinating during this publication than that of Torak's, specially simply because i don't think that no matter what he learns at this aspect will keep it up to the subsequent book, even though we are going to need to see once we get there. The stakes felt greater than earlier than and the hazards that the trio meet alongside their method hold getting a growing number of severe and Paver does a

---

tremendous activity at bringing the reader into the thick of it. The sounds and scents of the outdated woodland have been round me as I ventured more and more into the book.

Lynsey: now not my favorite ebook of the sequence yet nonetheless a superb read. you could inform lot of study went into those books and every of them were relaxing and good written. i would certainly suggest this sequence to a person that fancies a little bit a transformation from the norm. additionally the tip of this e-book rather made me smile. It used to be noticeable what was once coming yet nonetheless a truly uplifting ending. total beautiful great things

Megan: CHRONICLE OF old DARKNESS - booklet 5: OATH BREAKER via Michelle Paver Oath Breaker is ready a boy who lived in prehistoric instances and needed to discover ways to live to tell the tale on his own. His father has died and he has been outcast from any clan. while Torak's ally is killed, he swears vengeance and is going after the killer in addition to one other ally and her uncle. I enjoyed how the writer enabled us to determine what lifestyles used to be like again then and to work out how humans observed and interpreted their world. It used to be interesting how good they can speak with the animals--both human and animal understood & befriended one another. But, on the similar time, I had a troublesome time wrapping my brain round the concept that people may perhaps really research and converse the audible language of animals. However, it was once effortless to think you have been really there, within the wild, having to struggle to survive. The names that the writer utilized in the publication have been a piece confusing, at times. was once person's name? used to be that the identify of a Clan? Or was once that the identify of whatever in nature? yet i finally stuck directly to the system. I completely loved this e-book and i would suggest it to an individual who likes to examine prehistoric cultures. or even notwithstanding i used to be in a position to comprehend every thing during this book, i feel interpreting the 1st 4 books may assist you know about the naming approach and the way the people & animals may perhaps communicate, between different issues approximately this culture.
