Description

Pengembaraan Tom Sawyer mengisahkan peristiwa yang benar-benar berlaku kepada penulisnya, Mark Twain atau nama sebenarnya Samuel Longhorne Clemens. Kepercayaan tahyul yang aneh-aneh yang digambarkan di dalam novel ini merupakan kepercayaan yang tersemat di jiwa anak-anak serta hamba abdi di negara barat pada waktu cerita ini terjadi. Sungai Mississippi telah menjadi saksi kepada setiap pengalaman Tom Sawyer dalam pengembaraannya, ditemani oleh dua orang kawan karibnya, Huck Finn dan Joe Harper.

Insightful reviews

K.M. Weiland: This book is a delight from start to finish. I was honestly prepared, going into it, for it to be utterly overrated. But it's as charming as can be—far more so than even the most endearing of its film adaptations. Tom is a deliciously *real*, ornery, mischievous, good-hearted, entirely lovable boy. And Huck Finn is the perfect foil as they embark on a boyhood of adventures. Thoroughly wonderful.

Antonio:

Creo **3.5** estaria mejor pero como **Goodread** tiene una ~~malita~~ política totalitaria dictadora con las estrellas lo dejare en **4**

Las aventuras de Tom Sawyer es un clásico "universal" del que probablemente hayan visto alguna de las muchas adaptaciones americanas que tiene, ya sean propias series de televisión o películas basadas en el libro o apariciones especiales, como sucede en los padrinos mágicos. Quizás incluso se sepan ya la historia de la cerca que había que pintar.

En si esta es la historia de un niño muy listo, sus juegos y travesuras, que se transforman en aventuras; sus amigos, su gran imaginación, sus primeros tiernos amores, sus miedos y supersticiones, sus peleas y sus actos de nobleza.

Me gusto bastante el libro, en algunos momentos quise regresar a mi niñez y entregarme a los juegos con Tom y todos los demás, ser pirata o ladrón, o indio o Robin Hood.

Aunque me gusto mucho como dije, hay un par de cosas que no me gustaron tanto, cualquiera se puede identificar con los juegos (cualquiera que haya sido niño o niña) pero la prosa de Twain no es sencilla, es bastante elaborada y floreada con palabras complicadas, o dicho de otra forma, **es como si Sheldon Cooper me estuviera contando la vida de Bart Simpson.**

again within the 60s or the only on my cabinets now. This is a superb book, for younger or old, learn it again and again a "true" American classic. Great, great, great. Tom white washing the fence is so good know...and so much have a minimum of heard of Becky, but when you have not long gone to the grave backyard with Tom (and Huck) and brought the blood oath: "swears they are going to continue mum approximately This and so they want they could Drop down useless of their Tracks in the event that they ever inform and Rot." (quote from Tom Sawyer through Mark Twain) Or be tracked via a cave via a murderer...or even fed a cat "painkiller", good you do not know what you've gotten missed..Don't omit this when you have not taken the time to learn it, do...quick.

Teri: i really think that if Tom Sawyer have been ever a true person, there isn't one unmarried approach to torture that he may perhaps undergo that will fulfill how a lot i need to determine this individual suffer. All i do know is that demise will be too kind. Tom Sawyer is a bully. he's insufferably mischievous for no sturdy reason, and the single act(s) of heroism he manages to drag off are to meet his personal egocentric motivations. He has completely no price to humankind. he's a conviction personality with out arc and no own progress within the so much frustrating ways. If I met him in actual life, i wouldn't hesitate to damage his kneecaps with a crowbar. Have I made it transparent how a lot I hate Tom Sawyer? Now that does not suggest you mustn't learn the book. The e-book itself is written well, and it is a major window to our personal earlier or a few such shit, and Mark Twain is an American treasure, blah-dee-dee-blah-blah. otherwise you can simply move learn Twain's follow-up, The Adventures of Huckleberry Finn instead, simply because it is all that with no need to place up with the insufferable bullshit of Tom Sawyer. Just pass the previous few chapters of The Adventures of Huckleberry Finn whilst Tom Sawyer indicates up back and cocks up every thing for his personal personal, evil amusement. And no i am not hiding this for spoilers, simply because believe me, I simply did you a tremendous favor.-----EDIT 6/13/15: Wow, a few of you parents are taking this waaay too personal. it is a e-book assessment in line with a private opinion. i am not threatening your children, or stalking your families, or abusing real people. So relax. Yes, it is might be a bit too scathing (I take again the bit concerning the crowbar). I in truth didn't count on this many folks may learn this review, or I most likely might have toned it down. yet I nonetheless stand through the fundamental premise of what I say in regards to the character: Tom's an ass. Now pay attention me out. i am not ignoring the idyllic nature of the period of time a few of you've suggested, nor am I evaluating it with any form of current notions approximately baby behavior. i am strictly evaluating the nature of Tom Sawyer to a different personality whom I adore, one who grew and realized in-story, and touched me and have become a massive concept for me as a threshold for great personality development. That personality is Huck Finn. But, admittedly, now not the Huck Finn of this book. So, to these whose loved publication i've got unfairly criticized, i am sorry. i spotted my mistake: this evaluation is not a critique concerning the personality Tom within the The Adventures of Tom Sawyer at all. it is a feedback of Tom on the finish of The Adventures of Huckleberry Finn. i've been unfair to the e-book The Adventures of Tom Sawyer as a standalone work, or the nature within the context of this book. in its place i've got allowed my anger and disgust of the character's habit to retroactively bleed again from the tip of The Adventures of Huckleberry Finn. Tom's therapy of Jim on the finish of the latter publication is deplorable, and for me, it tarnished any "fun" the nature can have led us via during this first installment. i ponder if those that accept as true with me usually are not judging it from an identical standpoint as I am. i will not aid yet

examine Tom's remedy of Jim on the finish of *The Adventures of Huckleberry Finn* throughout the lens of our smooth world, whilst racial pressure and abuse (yes, I went there) of blacks and minorities is something yet funny. To me, Tom represents each privileged so-called Christian that has no ethical concerns with exploiting others for his or her personal benefit. you cannot learn the tip of *Huckleberry Finn* and in truth imagine Twain was once simply having a few "wholesome blameless fun" vicariously via Tom. No, my bet is that Twain did that intentionally and consciously, to make us research our personal activities and remedy of people as little greater than animals. He selected Tom because the car to make that point. Why? simply because Tom is a primary illustration of privileged little shits who do exactly that! in the meantime Huck, the everyman, the only we determine with and develop with, stands by means of and we could it happen. we are hoping we would not do that, that we would withstand our peers, even these we belief and idolize, to safeguard what we all know is morally right. yet it really is as though Twain is criticizing all of humanity and announcing that, no, even the easiest of us, who do understand better, won't. simply because laziness, fear, ignorance, or what have you, we stand via and make allowance idiots like Tom to run over everyone's life. it is not the result or the finishing we'd like for that story. yet it is the one that is such a lot realistic....either that or Twain used to be simply trying to make a dollar and threw in Tom as product placement. Regardless, the result is below flattering. So do not blame me for disliking the character; blame the man who wrote him that way!

j: As a child, not anything terrified me greater than being lost. My mom and dad stumbled on this hilarious. whenever we went on a highway trip, my dad may wait a couple of hours after which begin moaning that we had by some means gotten lost. "We're loost! we are loost!" he could wail, and within the backseat i'd instantly commence bawling. My shiny stories of this recommend that the phobia grabbed me lengthy after I must have been sufficiently old to achieve little child cannot particularly be misplaced whereas together with his parents, not to mention that you just cannot rather wander off in any significant means in a automobile within the united states (well, perhaps spiritually).I have no idea if this can be a common child fear, yet i feel with me, it stemmed from this book. extra specifically, from the Fisher rate audio production, which I listened to such a lot of instances I had huge swaths of it memorized ("Tom Sawyer is a story of mind's eye and wonder, informed in particular for you... from Fisher Price!"). And this factor was once ninety minutes. The half the place Becky and Tom wander away in McDougal's Cave used to be the main harrowing factor i may imagine, although looking back it used to be most likely rather ridiculous, what with the entire boys truly voiced through grownup girls and the oddly didactic discussion ("Oh Tom, the candle's virtually out. Oh Tom, it truly is going out. Tom, it really is out! what is going to we do, Tom?"). and prefer being misplaced at nighttime wasn't enough, "Engine" Joe was once in there too! (I do not know if the reason is, I by no means observed the observe in print however it wasn't till i used to be in my kids that i ultimately learned what his identify was, and what it meant). while my relations went to Disney international whilst i used to be approximately five, we visited the Tom Sawyer's Cave attraction. My dad, ever the mild and loving parental figure, determined to taunt me first by means of moaning that we have been lost, after which through announcing that Injun Joe was once going to get me. This incident i do not remember, yet my mother assures me there has been loads of loud screaming. Everyone, together with the folk in line at the back of us, suggestion it used to be very, very humorous that i used to be scarred for life. i guess the assumption of being terrified whereas at a sanitized position like Disney global turns out a bit amusing. other than

within the corridor of Presidents, that's certifiably creepy. I would truly by no means learn this before, and it is simply delightful. A lot of it has turned into iconic, yet it really is nonetheless particularly an endearing portrait of the idealized boyhood, the best way the mundanities of lifestyles appear to stretch out into complicated adventures and whilst sitting subsequent to the lady you love is an adventure all its own. I learn Huck Finn in high school like all people else, and although it is a nice book, this one is simply extra enjoyable to read. It's very episodic, extra a sequence of adventures than a cohesive narrative (and Tom definitely has a hectic summer... mine hardly ever concerned witnessing murders or being threatened via murderers), that's most likely why it really is such an everlasting and renowned learn for children. It's beautiful impressive how a lot of the publication Fisher rate was once in a position to healthy into that tape. I feel just a couple of sections were not represented, and all of the massive ones (the cave, the treasure hunt, the funeral scene, the pirate adventures) have been vividly customary while I eventually learn them. Of course, I am yes it is lacking loads of Twain's colour and subtle, underplayed humor, and I am additionally yes it can sound much much less notable if I listened to it again. Which thankfully I will most likely by no means do simply because even supposing I nonetheless have the tape, I have never owned whatever that may play it in approximately 5 years.
