Description

At last, Mia is a junior. An upperclassperson. So why is it that everything is going so terribly wrong? What is she doing in Intro to Creative Writing? When she has made it through Algebra and Geometry, why must she be faced with Pre-calculus? All this is nothing compared to the news Michael springs on her, however. Her beloved boyfriend could be leaving for Japan for a year—or more! Pre-calc has nothing on preparing for the worst separation ever!

Turns out there is one way she might convince Michael to stay. But will she? Or won't she? No matter what, Mia seems headed for disaster.

Insightful reviews

Krista: Mia is dumb, messing things up with Michael when he's going to Japan to basically help the world AND PROVE HIMSELF SO PEOPLE WOULD BE OKAY WITH HIN DATING HER, A PRINCESS. Gosh Mia. J.P is so adorable tho hahah but Michael & Mia forever (except that Mia dumb)

4/5

(Also liked Meg including her other works in it as a passing remark. It was funny)

Devon: I can't believe this book. Michael and Mia break up and Lilly and J.P. break up. But, I can understand why Mia breaks up w/ Michael. He didn't tell her that he had sex w/ Judith Greshner. EWWWW!!!!!! For God's Sake, Mia had a lot more better thigns than Judith. All Judith could do was clone fruit flies. Mia was a princess and loved Michael. But, I can't believe Michael went to Japan. I think Meg Cabot needs to write another book in the Princess Diaries Series so we can all find out what happens to Michael and Mia.

Anne: As I had never actually read this one (I think I read up to book 7), I picked it out today even though I realized that my love for this serie had ended when I picked up *Princess in Love* yesterday.

Mia is more annoying than ever. She is the most feather-brained, thoughtless, and idiotic heroine ever. If she could just take 5 minutes to breathe in and out and stop making a freaking dramatization out of every single thing that happened in her life, maybe she would attain her goal of self-realization. But no. Apparently being a princess isn't enough, she also has to be a queen. A drama queen.

And up until here I actually liked Michael, but in this one, I have to admit that I sided with Mia at the end (her freaking out on him at the end is the only forgivable thing she did- even though she acted out of selfishness and not out of principle); what an effin asshole.

Seriously I'm so pissed with these books, I won't even bother to read 9 & 10...it's just more likely to destroy entirely the good memories associated with reading these books when I was young.

I still love the movies, however!!! They are so different from the books, and well, it's with Anne Hathaway, so what's not to like?!

Tatiana: am an grownup yet very keen on the Princess Diaries books. this isn't my favourite book, just because it isn't as humorous because the prior ones. however it is written approximately concerns that curiosity me. After all, i have been myself. i presumed it used to be clever of Meg Cabot to elevate questions on intimacy matters between Mia and Michael. each woman relationship an older boy at some point soon has to stand an identical problem: should still she DO IT together with her extra mature boy-friend no matter if she isn't really ready, or get a divorce with him simply because they aren't fairly suitable (yet) at the adulthood level. i'm yes it was once correct for them to wreck up (at least for now). i used to be upset although that Mia needed to leap into the connection with JP correct away, i'd have most well-liked her to pay attention to her institution instead. with regard to such a lot of readers complaining that Mia used to be completely neurotic in her response to the inside track that Michael had already "given away his beneficial Gift," I completely comprehend her despair. Michael must have recognized that it used to be vital to her just because she used to be conserving directly to her PG. So his dismissal of her emotions may have enraged me, too. In all, i'm really happy with the books and looking out ahead to the final installment and Mia and Michael's reunion. P.S. there's something incorrect with JP, do not you think that so?

Lisa: This used to be most likely my favorite of the 1st eight books. i suppose as the difficulties have been commencing to get extra excessive than prior books. during this book, Michael tells Mia that he is going to Japan for a 12 months or more. Mia freaks out and wonders if she should still eventually have intercourse with him in a ploy to get him to stay. This ends up in practical problems. Lilly goes out with J.P, who turns out to be interested in Mia. Grandmere remains to be loopy and fats Louie continues to be fat. fairly dramatic in comparison to the final ones. Makes me are looking to learn the final books within the series. Will preserve a watch out for them within the library.

Lucie: Mia je blbá...:D Ptej nejčenn?jší dárek...:D
