## Description

What's an American girl with a big mouth, but an equally big heart, to do?

Lizzie Nichols has a problem, and it isn't that she doesn't have the slightest idea what she's going to do with her life, or that she's blowing what should be her down payment on a cute little Manhattan apartment on a trip to London to visit her long-distance boyfriend, Andrew. But what's the point of planning for the future when she's done it again? See, Lizzie can't keep her mouth shut. And it's not just that she can't keep her own secrets, she can't keep *anything* to herself.

This time when she opens her big mouth, her good intentions get Andrew in major hot water. So now Lizzie's stuck in London with no boyfriend and no place to stay until the departure date written on her non-refundable airline ticket.

Fortunately, there's Shari, Lizzie's best friend and college roommate, who's spending her summer in southern France, catering weddings with her boyfriend, Chaz, in a sixteenth-century château. One call and Lizzie's on a train to Souillac. Who cares if she's never traveled alone in her life and only speaks rudimentary French? One glimpse of gorgeous Château Mirac - not to mention gorgeous Luke, the son of Château Mirac's owner - and she's smitten.

But while most caterers can be trusted to keep a secret, Lizzie's the exception. And no sooner has the first cork been popped than Luke hates her, the bride is in tears, and it looks like Château Mirac is in danger of becoming a lipo-recovery spa. As if things aren't bad enough, her ex-boyfriend Andrew shows up looking for "closure" (or at least a loan), threatening to ruin everything, especially Lizzie's chance at ever finding real love...

Unless she can figure out a way to use that big mouth of hers to save the day.

## Insightful reviews

Mizuki: DNF at page 41.

I don't know why, but I kept drifting off whenever I tried to continue reading this book. It seems to me, Queen of Babble is just a lot of supposedly funny stuff and a lot of supposedly humorous dialogues thrown together; I dislike the MC as far as I read the first chapter, plus there also seems to be a lot of American/British stereotypes going on. It's so not my cup of tea.

Wicked Incognito Now: How disappointing that I bought the sequel to this along with this book. I

---

really expected a Bridget Jones-like, silly quirky good time. Which this story tries to be, but it goes too far. No one is as stupid and innocent as this woman. Even really stupid people realize that if you have a long-distance relationship, and the guy invites you to stay with him (in England) and it turns out he lives with his parents, and "oh yeah" the only bed he has for you is a rigged mattress in the laundry room.....even stupid people would get that it is not a redeemable situation. But this character goes on and on trying to justify the situation and it's just so eye-rollingly TIRESOME.

Hollyhocks: I really like Meg Cabot's "Size 14 is not Fat Either." So I checked this book out of the library. It was my mistake that the title Queen of Bable was quite literal. I didn't make it through the first cd cuz the main character was very superficial. She went on and on and on in thought and I thought, I would not want to be friends with this person. Within the first cd she talked about her major of History of Fashion at University of Michigan and going to Europe to see her boyfriend that she couldn't remember what he looked like but oh, she lost weight to look better ... and she mentions that a million times w/in the first cd. It's a pathetic character and I don't care how the plot woulda gone - supposidly she leaves this boyfriend to meet up w/ her friends in Paris just to meet another guy - I woulda ever like it. Superficialness (if that's a word) at it's core.

Amanda: i am serious about a quick, enjoyable learn each now and then. Ones that do not fairly make you think, simply giggle and sigh. This publication certainly didn't make me imagine and there has been loads of sighing yet no guffawing and an entire lotta eye rolling. the most character, Lizzie, did not do loads of pondering either. She misses anything large approximately commencement and many times ponders her 'boyfriend' and their hypothetical children. She specializes in the very fact she was fats and hasn't had a little bread, no longer even a crumb, for months. She hasn't even slept with the man but and she's already acquired her marriage deliberate and their 4 children names. She has a subject with blabbing approximately every little thing and asking silly query simply because SHE does not THINK!!! And what freaking grownup of their correct brain calls an erection a stiffy? What!? Are we a school graduate or a sixth grader? It bought just a little greater towards the top yet after slogging throughout the first a part of the publication these previous couple of pages simply could not redeem it.

Karen: This was once a truly enjoyable ebook to read. Lizzie used to be a good written, humorous personality who I loved attending to know. As an individual who additionally suffers from an inclination to babble (especially whilst nervous), I felt like she was once a kindred spirit. I plan on interpreting the follow-up books during this series. It used to be a brief & stress-free read!

Ali: Queen of Babble by way of Meg Cabot Lizzie Nichols can't retain her mouth close for anything. She talks and talks the entire time. She is in collage to develop into a manner designer. She has a long-distance boyfriend, Andrew, from London. Her collage roommate, Shari, is now her top friend. Lizzie appears like a superb and stylish lady who can look after herself. Lizzie is going to London for many of the summer season to go to Andrew, and makes a tremendous mistake. Lizzie and Andrew get into it simply because Lizzie doesn't know the way to maintain her mouth shut. So now Lizzie is caught in London until eventually her airline price ticket time and he or she has nothing...well Shari's regularly there for her. This summer time

---

Shari and Chaz, her boyfriend, went to a marriage cabin to aid out Chaz friend. So Lizzie will get on a educate and to Souillac, where the place they are, by myself being the 1st time she has traveled on my own and she or he merely speaks little French. So she spends the remainder of the summer time catering for wedding. i feel that may be fun. If i used to be going to London to met my boyfriend i'd take an individual with me consequently being. I couldn't do a long-distance dating anyways. so that you could me that used to be on her part. Yeah, i believe its cool that has a London boyfriend however it might for me. So now Lizzie is on the marriage ceremony cabin with Shari, Chaz, and Luke, the owner's son. Luke is HOTT. Lizzie falls in "love" with the hottie. Lizzie is there to cater though, and she or he hears a mystery and...guess what? Yap...she blabs! Luke quickly sees the true Lizzie Nichols and hates her. she will be able to now not maintain something inside. i believe i'd hate myself if I had that problem. It simply might mess every little thing up. If I misplaced Trent, my boyfriend, simply because I blabbed anything i might blame him...yeah i'd omit him yet I shouldn't have advised that thing. Lizzie quickly will get over all of it and starts off dwelling her existence again...just a bit quieter. You know...I suppose sorry for Lizzie. She has an affliction that can't be cured. I loved this ebook since it stored my interest. i might suggest this ebook to the drama people!
