Description

Men of August - Sarah's Seduction By Lora Leigh Book 2 in the Men of August series On a hot summer night six years before, Brock August showed Sarah Tate a passion that would nearly destroy her. But fear and innocence drove her from his arms and into a marriage she neither wanted, nor found happiness in. Now Sarah is free and she wants that night she lost. One night, a few stolen hours to know the heat and passion of the man she never forgot. But Brock has other plans in mind. A secret, a passion, a desire his brothers share. A desire Sarah will be unable to deny. That is, if she can escape the dark designs of the stalker intent on destroying the August men.

Insightful reviews

Alex is The Romance Fox: This is the 2nd book in Lora Leigh's Men of August, which I enjoyed more than the 1st book,

I found Brock more likeable than Cade, he's less domineering – well, just a bit, but he has a much softer and gentler side to him most of the time, that is. Again, it's a story of a brother falling in love with a very young woman, named Sarah, who runs away from him at eighteen, too afraid of getting involved with one of the August brothers.

Sarah has always felt something for Brock and when she was eighteen, Brock had tried seducing her but she ran away when his brother Sam walked in and not being able to handle the situation that she knew about the brothers, married the first available guy, who turns out to be an absolute wimp and a serial adulterer.

After six years, she divorces him and decides that she has to get Brock out of her head..and what exactly is her plan?? She will have one night with him, get over her obsession and then continue with her normal life. Now, did anyone ever tell her that things are just not that simple?????

Brock has been waiting for six years for Sarah to accept his rather unusual lifestyle....and yes, it's more than just unusual!!! Three brothers who had been mentally and physically tortured, in their youth, by evil and perverted men, and here we get to know more about that time and the reason for wanting to share their women with each other. I don't know if I am able to fully understand that such a horrific experience would help them come to terms with it in this way.

In the beginning, I thought that Sarah may turn out to be this weak and whining character...I found her a bit irritating at times – her behavior puzzled me somehow. She wants to be seduced by Brock, having some knowledge of what he expects from her, and then believes she can walk away if he doesn't agree with her not wanting to be part of the whole brothers lifestyle!!!! A bit naïve, here!!!! And the manner she displays when meeting with Cade, Sam and Marly really pissed me off!!!! So rude and obnoxious!!! Only to suddenly agree to the whole sharing bit....and even then not admitting that the idea of being with his brothers turned her on, just made me madder!!!!

The author manages, somehow to get me believing and engaging with the ménage, or what does one call it with four people....orgy...nah!!! The sex scenes are written in such a way that rather than putting you off, actually turn you on. Right, admit it.....who wouldn't be turned on by three gorgeous men wanting to get into you whilst one woman watched!!!! This is the total erotic fantasy and never does it become dirty or sordid...in fact I found it quite sweet...erotica doesn't have to be just domination, sweaty and hard sex, it can also be nice and gentle, sweet...okay rambling on a bit..just saying the sex scenes were hot, sexy, scorching....addictive?????

Of course, not to make it just a story with sex, and more sex...of course there are a lot, and I mean a lot of pages on that, but there's the addition of a stalker, serial killer out there wanting to do some really bad things to the August men and their women. What, you thought the bad guy had been killed off in the 1st book!!! No, they got the wrong perp!!!! And now things are getting even worse at the ranch. Someone is determined to bump these guys off and the ending leaves you with a cliffhanger...who is it and why is there so much hatred for these men, who in fact, are respectful, hardworking and loving people, who want to live their lives together and with their women!!

If you want a hot read, filled with romance, love, heartache, loyalty and gorgeous men and women and great erotica, continue reading this series. Forget the implausible plot, some repetitive scenes and dialogue – go with the flow and get into the whole August world!!! We get to see the growing relationship between Sam and Heather, whose story will be next. Synopsis: Men of August - Sarah's Seduction By Lora Leigh Book 2 in the Men of August series On a hot summer night six years before, Brock August showed Sarah Tate a passion that would nearly destroy her. But fear and innocence drove her from his arms and into a marriage she neither wanted, nor found happiness in. Now Sarah is free and she wants that night she lost. One night, a few stolen hours to know the heat and passion of the man she never forgot. But Brock has other plans in mind. A secret, a passion, a desire his brothers share. A desire Sarah will be unable to deny. That is, if she can escape the dark designs of the stalker intent on destroying the August men.

I read this book, because I always feel like if there is a series, I should forge ahead and hope for the best. We find out more in this book about the abuses the brothers suffered at their fathers will and the will of his "friend". Atrocious as those abuses were, it still seems odd to me that the brothers can only show their love for each other by sharing their women.

These men are hot and dominant and I enjoy that, but couldn't the sharing of their women just have been a kink that they are into instead of a healing mechanism for their pain?

Oleta Blaylock: This book definitely cannot be read alone. It is the pivotal story that starts the build up to the ending in Heather's Gift. Marly's Choice could be read without reading the other stories because you were left believing that the story had ended. The bad guy was found and taken care of and all was well with the world. Well if you have ever read any of Lora's books you would know that wasn't the case. We hadn't found out what went on with the brothers yet and we hadn't found out how Jennings was able to get so close to Marly and the guys when there

was so much security. Now that is part of my problem with this story. These people that are providing security should realize that someone on the inside is helping this mad person. No one as well trained as these security people wouldn't start to suspect there was a problem with either someone on the ranch or someone in their firm.

As for Sarah and Brock they were a lovable couple and while Sarah fought long and hard over being attracted to Sam the the life style that he needs she really was turned on. I guess Sarah was just a product of the society that she was raised in. If it is plain old vanilla than it is perverted and dirty. I wonder how long we are going to allow what others think is moral to dictate what we are happy with. As with Cade, I would probably behavior just to have Brock spank and punish me.

This story also begins the love story for Sam and Heather. We also get a look at Sam and the fact that of the three August men he is probably the most damaged. I don't remember why he is so hurt but I look forward to reading his story again so I will remember.

Shawna: 5 stars – Romantic Suspense/Erotica/BDSM/Ménage

Sarah's Seduction delivers more ménage hijinks and sexual excess from the dysfunctional, desperately in need of some therapy August brothers. I liked it much better than **Marly's Choice** mainly because the H/H, Brock and Sarah, were a lot more tolerable (even likable) and less 'wanna throw the book across the room at their idiocy' inducing than Cade and Marly.

Although Brock is an alpha hero, he's emotionally expressive, tender, sweet, and caring, and he at least recognizes that he and his brother's need to share their woman as a way to cope with the demons and nightmares from their past abuse is messed up. Brock isn't nearly as dominating and forceful as some of Leigh's alpha heroes, and compared to his brother Cade, he's practically a beta softy. Sarah was a nice match and equal companion for Brock, and she showed some spine and grit, especially compared to whiny, clingy, annoying Marly.

This story dove deeper into the reasons behind the August brothers' compulsion and need to share their women as a way to express their love for each other, and although I still think it's a bit (okay a lot) nuts, it definitely makes for one scorching hot, wickedly erotic read in true LL style. It also showed growth in Cade and Marly's relationship and a hint of the beginning of some healing for the brothers, largely due to Brock's openness and the addition of Sarah into their circle. The stalker threat becomes even more twisted and dangerous this time, the suspense heats up, and it ends on a cliffhanger. I'm eager to read Sam's story in **Heather's Gift** to discover who's after the August clan and whether or not the brothers can finally find some relationship peace, once and for all. 5 stars.

Cyn Mistress Kitty: I simply complete Sarah's Seduction speak about one twisted family. MERCY. I had learn that this used to be a wierd sequence and it is. i actually loved it notwithstanding so what does that say approximately me? The brothers during this sequence have been horribly abused and now the single means they could hook up with one another and forgive and love one another is to percentage their women. it's so perverted and ailing and but I

shudder to assert that i will virtually see and comprehend their logic. i have not learn any books like those yet I simply need to learn the subsequent and final publication within the series, Heather's Gift. I simply did a re-read of this ebook and remembered how a lot I disliked Sarah. She took stubbornness to a brand new demanding level.

April: the tale right here was once higher than the 1st booklet yet nonetheless emotional. This is loaded with triggers when you've got suffered any type of assault. i'm additionally nonetheless uncertain on why they suppose they have to proportion after discovering their one or why the women condone it! total i am getting previous all of the faults and luxuriate in the book.

Cosine: ladies who crave intercourse so badly that they beg for it disgusts me. males who strength their ladies to develop into their intercourse slaves and move directly to coerce them to be shared with different males (even if its their tortured brothers) disgusts me even more. What used to be it with the ladies in those books that they so willingly gave in to their physically cravings? And what was once it with the lads that they so perversely shared their one real love with different men? get up people! it isn't real love for heaven's sake - it is simply hormones.
