Description

We know by now that Scaredy Squirrel only feels safe when he's at home in his nut tree, with his defenses, his emergency kit and his back?up plans at the ready. So even though the sun is shining and it's time for a vacation, Scaredy does not want to go to the beach -- that vast, frightening place where a squirrel could get stranded. (Not to mention other hazards such as sea monsters, falling coconuts, seagulls, pirates and lobsters.) Instead, Scaredy builds his own safe beach getaway under his nut tree, complete with germ-free inflatable pool, artificial beach scenery, a flashlight and a plastic flamingo. Still, the lure of the genuine beach is strong -- even a dedicated homebody such as Scaredy can't resist it forever. Can his back?up plans save him from its perils? Will his No.65 sunscreen protect his delicate complexion?

Insightful reviews

Matt Anderson: I liked the idea behind this book, but I didn't like the execution.

I can't see myself taking the time to use this as a bedtime story on a regular basis.

Heidi: This is a much more elaborate and involved Scaredy Book than the others, but still just as humorous and fun. Especially as I near the end of a summer in which I enjoyed my own day at a beach among A CROWD. I love his fears, his plans, and the way things always end up just fine. It's a great way for me to laugh at my over-reactive self and helps me stop worrying over some of the ridiculous things that I do. I think these books are always creative and I look forward to more of Scaredy Orville Squirrel.

P.S. One of the funniest parts for me was his "messy hair" in his passport photo.

Maria Bulfamante: This is a also a cute book because scaredy squirrel is afraid of the outside and only feels safe when he is on his home. He doesn't want to travel to the beach because he feels like he is gonna get lost and trapped there. This is a cute book because it could teach children how not to be afraid of the outside world and learn to explore!

kim: ensuring i have lined the entire Scaredy Squirrel books, they crack me up. greater for kindergarteners+not pretty much as good because the more moderen titles

Naomi: Gotta say that i admire Scaredy Squirrel up to i like Piggy/Elephant and Pete the Cat. those are only enjoyable books with a superb structure with a unique theme. i've got but to have one i do not enjoy.

Leyla: i admire Scaredy, my daughter loves the maps and the sequencing. The illustrations are gorgeous. i believe the litetary price of those books, after studying a few them in a row, is within the skill of realizing not anything is ever so undesirable after all. Even a few germs ;)
