## Description

"American Library Association Best Books for Young Adults

"VOYA Best Science Fiction & Fantasy selection

Lanen Kaelar has dreamed of dragons all her life. But not just dreaming, for Lanen believes in dragons.

Her family mocks her that dragons are just a silly myth. A legend. But Lanen knows better. And she means to prove it. One day she sets out on a dangerous voyage to the remote West to find the land of the True Dragons.

What she discovers is a land of real dragons more beautiful-and surprising-than any dream she could have imagined.

## Insightful reviews

Jeffrey Grant: This book had kind of a slow start, but once it got going it was an absolute joy to read.

It put me in mind of [Mercedes Lackey's](#) early Valdemar books or [The Fairy Godmother](#), tending toward the tone of the latter; there's a mix of conversation, mundane "living life" moments, and fantastical action. Also, like the books I mentioned, a romance story features as central to the plot and a lot of time is spent on it, though it doesn't become the *whole* story like in Romeo and Juliet.

The ending may come off as a bit Deus Ex Machina, but if you pay attention to the story it's clear that the seemingly "quick fix" has a lot more epic meaning associated with it that is no doubt explored in the later books.

Practical side note: I was pleasantly surprised to find a book this old available as an e-book.

Megan F. 8 Rdg: I rated this book 5 stars. (If I could, 10, but sadly I can't. :D)

This book is about Lanen Kaelar, and her journey to the Dragon Isles. What she finds there is behind her imagination and hope, and it will be an adventure she will never forget.

I absolutely love this book because of the plot and characters, and how the author wrote it. The way it was written gave you a chance to see what almost all the characters were feeling sometime throughout the book. This is a MUST read, and by far, my favorite book ever.

Sadie Mason-Smith: I originally read this in high school, and reread it recently. This book series features some fantastic MOTHERLOVING DRAGONS, but is inundated with the kind of overly-flowery language that tends to show up in teenager's first fanfic attempts and fantasy genre authors who just really really want to be Tolkien.

I love the plot premise and the issues of a cross-species Epic Love for people who aren't Jack Harkness (this relationship totally passes the Jack Harkness rules of "Can we get it on?" - everyone's capable of consent, sentient, and an adult according to their native culture). If you can watch the first half of The Labyrinth without rolling your eyes at Sarah so hard they almost

---

fall out, then you will devour this book and search for the sequel (like I did back in high school). If you get horrific second-hand embarrassment burns from teenagers being LARPy teenagers, then you'll probably put this book down around page 50.

MJ: the belief for this e-book was once particularly interesting, however the writing was once simply uninteresting - after which in the course of the publication the headlines on who the narrative belonged to - that used to be simply tacky.

Hazel M Bear: i used to be proud to have comprehensive this novel in 7 days. each loose second I had, I simply had to use it for reading! It used to be written clearly, now not easily though, with none time wasted on lifeless bits that didn't paintings to satisfy the storyline. Lanen's adventures have been interesting and her voice so precise to her character. Jaime, Akor, heck the entire superb characters are themselves instead of simply easy placeholders you regrettably frequently locate in delusion novels. Even the villain. the area was once wealthy with tradition and historical past as well. As an excellent plus, this is often the type of romance i actually enjoy. even though I take pleasure in a bit drama, so much 'true' romance novels simply appear ridiculous. yet right here was once a narrative of deep devotion that got here purely after a common 'getting to understand you' interval (yes, it was once short, yet there has been sufficient foreshadowing i believe to make it work). So, as a last recommendation, I let you know it's not that i am going again to the library to get the following during this trilogy. quite i'm ordering the 3 on-line to instantly upload to my collection, simply because I simply recognize i will not wait to possess this great story. one of many evaluation quote makes point out that this is often whatever you would re-read, and that i agree.

Lesley: bizarre writing style. yet extra importantly, a human and a dragon falling in love at the beginning sight? I simply could not get prior that one.
