## Description

### EARTH STANDS ALONE

The Coalition of Planets has shattered, with Vulcan, Andor, and Tellar abrogating the treaty. Their pledge to come to the mutual defense of any power that is attacked has been shunted aside. Horrified by how easily the Romulans can seize control of their advanced starships, turning them into weapons, Andor and Tellar have joined Vulcan on the sidelines. Humanity is now the only thing that stands between the Romulan Star Empire and total domination of the galaxy.

To drive humans from the stars, the Romulans employ ruthless and murderous tactics . . . and even dare to strike on the Vulcan homeworld with the hopes of demoralizing their Vulcan brethren. Heartened by their victories, the Romulans carry their all-out war assault closer to the heart of humanity—Earth.

But the tattered remains of Starfleet stand unwavering, with the resolution that never again would any enemy strike ever reach Earth. On the front lines of the Earth- Romulan War is the United Earth flagship, the *Starship Enterprise*. Her captain, Jonathan Archer, has seen his vessel of exploration become a battleship. Once hailed for his work bringing the Coalition of Planets into existence, Archer is now a pariah. Undaunted, the captain keeps fighting, searching for allies and determined to do his duty: to save Earth and forge a new federation of planets.

### Insightful reviews

Christopher Backa: The Romulan war books are plain awful. I quit the second book at chapter 17. This guy has to be one of the worst trek writers I have come across. The story is all contrived and the plot moves the characters instead of the characters moving the story along. I hope they dump this author because I won't read any of his books

Justin: A somewhat disappointing end to the Romulan War narrative. A little less drama and a little less desperate Starfleet would be a lot better. There were plenty of other official and semi-official Star Trek sources about that period that the author could have drawn on but did not use.

Telisha: Seriously such a great ending to the Trip/T'pol love story. Not to mention that Dax, Picard and a few other early family names show up in the series. For anyone who wants to see the true end of a great series and the beginning of the Federation as well as why the coalition of the planets failed this is a great series! I LOVED it!

Laurie Kazmierczak: Decidedly good...The writer jumps you round in quite a few years, yet fills in a variety of gaps within the uniting of the Federation and celebrity Fleet. because i admire all of the characters to start with, i discovered the ebook very satisfying.

Kiri: Yay! it truly is ultimately right here \*dives on in\* ---finishes --- Ala Stephen there'll be

---

images.. Ok.. i am not definite there's a lot i will be able to write a assessment upon that won't supply out significant (massive?) spoilers. i will say that this can be a novel that has much packed onto it, it does consider love it must have been might be 3 separate volumes for all of the ground/territory it covered. which isn't to claim that it used to be now not good.. reason it was. i feel it could actually have long past into extra intensity and nonetheless been simply as readable.. and given the writer an opportunity to inform every thing they have been bursting to write. there's something for each famous person Trek fan in this. Literally. No I suggest it. subsequent Gen Fan? good how a few little history and background of a few of your favourite characters? Deep area Nine? hello Dax! the unique Series? well.. you will simply need to learn these bits.. ;) We get it slow on Vulcan too. lots of Aliens, plenty of action, Mystery, Suspense, a smidge of assorted Romances. Romulans! Did I point out the Romulans? Oh and an enormous hat-tip for together with younger Owen Salazar-Tucker [Trip's nephew for these of you wondering] as a brand new MACO and the way he joined them. (Hint: His fathers weren't happy he joined up so young!) i've got no concept who this guy is.. he's adorable however. it sounds as if he was once on his technique to Paris. the place is a transporter for those who want one. :D yet i wanted whatever to submit rather than an image of the most character.. (cause that'd be a spoiler) :D Oh and the most superstar of the novel. We get a solution to that story too. Mr. Martin how deliciously evil of you to depart us placing correct on the finish of the tale and up till approximately the final web page of the epilogue! i used to be actually turning the pages asking.. "But what occurred to [censored]!! you can't kill [censored] in any case THIS!!" sure unfortunately i used to be that wrapped up within the story... \*deep breath\*Isn't that pretty? no i am not going to enable on what happened. yet there are plant life and different crops on the finish too! =) I basically wish that it will now not be the final firm novel. I so seemed ahead to this one and may deeply take pleasure in having extra tales from this series. To the publishers and authors of this series...

Jimyanni: this can be an enticing and well-written book; if there are a few minor continuity difficulties either with the firm television sequence (particularly the carryover wish-fulfillment by means of the writer ressurecting a personality who had died within the series) and with the unique famous person Trek television series, that is a pretty minor quibble. Taken by itself merits, the publication has sturdy personality development, a fast-moving, fascinating plot, sturdy pacing, and a usually sturdy story. If i locate the "Epilogue" to be a foolish tack-on sincerely begging for a destiny booklet that explains how we get from the following to there, i guess i will forgive that. Certainly, if you have learn the last few "Enterprise" novels and never disliked them, you want to learn this one to get a few closure.(Even if stated "Epilogue" charges slightly that closure.)
