## Description

An irresistibly romantic, laugh-out-loud funny, and aching true novel from bestselling chick-lit author Robyn Sisman Can you fall in love with someone you've never met?

Suze Wilding and Lloyd Rockwell are perfect strangers. She lives in London; he lives in New York. They know nothing about each other—until one summer they exchange jobs and homes.

Suze is impetuous, impatient, and NEVER wants to get married. Lloyd is complicated, cautious, and contemplating marriage to the eminently suitable Betsy. But when Suze discovers a plot at work to get rid of Lloyd, the two begin communicating long-distance—and they wonder what might happen if they ever met face to face...

## Insightful reviews

Misting: I didn't finish this book. It was horrendously boring. I fell asleep when it got so boring that the main character was just standing on the sidewalk, debating--rather gravely--of whether or not he wanted to buy a melon.

Courtney Acampora: I liked the idea of swapping homes in two different countries, but I thought some parts of the book weren't working. Once Lloyd and Suze begin communicating about the work issue with Lloyd, I was surprised how quick they found interest in one another. There was something missing, and their relationship needed to be developed more. I also hated the character Betsey--her function was to be the complete opposite of Suze, but every time she was in the chapter, I just wanted it to end. I read a chapter or two every night for a few weeks which caused me to lose interest. It was a good book, but I recommend reading more chapters at a time.

Janel: Surpassed my expectations! The cover of this book was so cute, and I figured it would be fun, so I picked it up. It's definitely chick lit, but a unique story and skillfully told. The main characters in this tale have never met before, and trade apartments through a job exchange program at the big time ad agency they work for. The guy, Lloyd is in New York switching with Suze in London. They both have their own adventures separate of each other, but also through a crisis at work involving a scheme against Lloyd, they begin to talk to each other long distance and develop a good rapport. It's enjoyable to see the characters develop through the experiences they have in their temporary new environments independent of each other, and how they eventually grow to know one another. Smart writing style, and will read more by this author. Loved it start to finish.

Chrisiant: this can be a absolutely predictable fluff publication - at midway via i'll already see in actual fact to its seen ending. Yawn. It felt as though it used to be written with the purpose of instantly turning into a simpering romantic comedy starring Julia Roberts and Hugh Grant. Boring. I bought it to learn on a bus journey to New York, after which learn whatever else, so I made this my bus book. it is a great fast diversion, and it isn't obnoxiously cute, even though it

---

borders on that sector sometimes. yet it isn't worth the time if there is something extra sizeable to read.

Cassie: This booklet starts off particularly slowly--and the outline at the publication jacket is deceptive. Suze and Lloyd's try to store Lloyd's activity does not commence till approximately web page 200, after he's already fired. nonetheless though, the finishing made me are looking to cry and it used to be cute. i used to be pleased every body within the tale vanquished the unfavourable affects of their lives.

Bookworm: this is often a type of books the place you learn the outline and you are already definite you know the way it ends. Yes, its a type of cliched novels...I loved IT ANYWAY! =] i'll photo this on screen. everybody leaving the theater feeling good. I felt satisfied interpreting it.

They will use 24 of the FORECLOSURE rentals that need to download in the example way.
