Insightful reviews

Brandyn: I like the part when they turn into seals and they find the sword of light and the funniest part was when teddy made a rhyme but he couldn't finish it and kathleen talked in a silky voice. This book is one of my favorites.

Lance: I enjoyed all the characters. My favorite part was when they had to answer the question about the sword and try to defeat the serpent. It was a really great story. The author described everything so I can picture them in my head. The pictures were awesome.

I would recommend this to ANY kid. Magic Tree House Stories are really great and easy to enjoy. Its sort of easy to read,

Christopher Salcedo: I like this book because in the book it states, In a land lost in mist, in a time before time, there is a powerful Sword of Light. Now Merlin the Magician needs that sword for the good of all Camelot. He turns again to Jack and Annie for help. And again, Jack and Annie take up the challenge!(pg.1) I also like this book because this book is A MERLIN MISSION book, I know that because in the story it states, Summer of the Sea Serpent is the third in a special group of Magic Tree House books called "The Merlin Missions". In these books, it is Merlin the magician who sends Jack and Annie on their tree house adventures, often to mythical and legendary lands.(pg.0) The last reason I like this book is because in the book it states, "Follow my rhyme to complete your mission." On the seashell's other side there is a rhyme that tells the siblings they must find a shining sword, Sword of Light, before the end of the summer solstice or Camelot's King Arthur "shall meet his doom."(pg.4)

The person who would like this book is, my other cousin called Victor. I say that he would like this book is because he likes all kinds of animals, the animal that he likes the most is a snake. A snake is important in this story because the snake protects the Sword of Light, under a sea. I know that my little cousin (Victor) likes snakes because when my family took a trip to the Statue Of Liberty there was a guy selling snakes and Victor wanted one.

One challenging aspect of this book the setting changes many times in this story. That is challenging in the story because you might forget where the setting is in the story. It is also challenging in the story because than you might think that the main characters are in a sea but they are really on a big rock.

A character that I can describe in the the book is a Selikie. Selkies are mythological creatures found in Faroese, Icelandic, Irish, and Scottish folklore. The word derives from earlier Scots

selich, (from Old English seolh meaning seal). Selkies are said to live as seals in the sea but shed their skin to become human on land.

Gavin: summer time of the ocean serpent is the 31 ebook within the series. the writer is Mary Pope Osborne she is the writer of all of the Magic tree condominium books. This ebook has 114 pages and eleven chapters. Merlin ship Jack and Annie to visit eire to discover a lady named Agusta who's the 3rd of 5 kids in her wealthy kin and she or he is the nicest by means of a ways she has sisters and brothers. Jack and Annie imagine that Agusta is a rotten suggest lady simply because her relatives is wealthy yet she exhibits them that she is sweet and likes bad humans via going to a woman named Mary's residence and exhibiting them that they're sturdy friends. Agusta doesn't believe in magic so Mary tells Jack and Annie to teach her so that they make little eight inch humans after which the folks take Agusta to a different international and Jack and Annie need to move get her. once they get her she talked to the folks and so they confirmed her a brand new language they she confirmed the realm via creating a renowned publication at the language and the way to talk it.

Leslie: i did not love it up to i have loved the opposite books within the series.

Kristin ?extols death with luminescent brilliance?: i am not going to fee this as i did not learn it all as my mom learn the 1st part to him. What I learn used to be stress-free even though and my son enjoyed it. He simply introduced domestic #37 final evening and requested if I learn those while i used to be a kid. by no means heard of them. i believe he may possibly ultimately have the endurance for Harry Potter now notwithstanding :)
