Description

In Tenth Grade Bleeds, it's another sucky year at Bathory High for Vladimir Tod. The evil vampire D'Ablo is hunting for the ritual that could steal Vlad's powers. His best friend Henry doesn't want to be his drudge anymore. And as if all that weren't enough, it's getting harder for Vlad to resist feeding on the people around him. When months go by with no word from Uncle Otis and D'Ablo shows up demanding Vlad's father's journal, Vlad realizes that having a normal high school year is the least of his concerns. Vlad needs to act fast, and even his status as the Pravus won't save him this time . . .

Insightful reviews

Karin: Vladimir Tod has been learning a lot about his vampire abilities. Otis has spent the summer training him on extending his telepathic communication. He is also getting better at sensing when other vampires are near. Both Vlad and his Aunt Nelly have gotten used to Otis being around and hate to see him go, but since Otis is still a fugitive in the vampire community, he knows in order to keep them safe, he must leave.

Vlad's life seems to be going great. He has the girl of his dreams by his side and everything just seems brighter when she is around. Meredith is head-over-heels for him no matter what her friends say.

A few things are getting in the way of his happy-go-lucky attitude though. To start with there is the pesky Eddie and his brand spankin' new camera, the terrible mood causing Henry, his best friend and drudge, to pull away from him, and his growing need for blood. Also causing him problems are the terrible nightmares that have been interrupting his sleep. Dreams of viscous attacks filled with blood and pain keep waking him in the middle of the night. It really worries Vlad when he can't contact Otis for help and advise. So, for the most part, Vlad is on his own.

Heather Brewer has written a wonderful addition to The Chronicles of Vladimir Tod series. Vlad becomes more and more likeable as his kindness and soft heart keep showing through. The thing that sets this book apart from the others in the series is the tone. TENTH GRADE BLEEDS takes on a more mature tone as Vlad deals with his relationship issues with Meredith and Henry and even more so when adapting to his increased blood lust.

The ending leaves the reader begging for more. TENTH GRADE BLEEDS is the best book in the series so far. It is exciting to think about what the future has in store for Vlad.

lori Morales: Like any normal tenth grader, Vladimir Tod must juggle with troubles of being a high schooler homework, girls, and grades. Although Vladimir Tod isn't any normal teenager, he's a vampire! Living with his nurse aunt Nelly, his newly exposed uncle Otis, and his best friend/drudge Henry the most popular kid in school, things can get interesting. Supposedly a king among vampires(pravus) he must cope with his hunger for blood, and escaping a maniac

who wants to take his blood. Heather Brewer creates a unique spin-off on the typical vampire and capes story, instead making it modern! I was attracted to this book due to it having a different storyline than the regular old Dracula type book. My favorite part is hilarious, when Otis and Vladimir make blood sausages and aunt Nelly surprises them by coming home; although she is instead surprised because the kitchen looks like the neighborhood kids were massacred. My least favorite is on two occasions, when Vlad's vampiric instincts take over. He swoons over the love of his life's blood and nearly bites her! On the second occasion he actually does bite a girl and nearly kills her when he drinks too much of her blood. So far the series is great and this book in particular is great too! Plenty of hilarious, and surprising moments are included. This book is great if you read it by itself but even greater when reading them in order. Anyone and everyone should read.

Steven: In all fairness i'm kinda at like a 3.5 and SPOILER ALERT ([view spoiler](#)) and don't get me wrong i like the series it's alot better than what i thought it was gonna be like but yeah i do suggest the book especially if you don't mind a character with a lack of backbone when he needs one

Sepideh Sahebsara: good!

Yasha: 10th Grade Bleeds used to be a great book. It had an outstanding description of the motion going on,so i used to be good conscious of what used to be going on. during this book, Vladamir Tod faces his enemy as soon as again. Eddie Poe, an unpopular child in school, reveals out Vlad's mystery and maintains to irritate him. I loved this ebook simply because we will as soon as again, adventure Vlad's actions/scenarios. whereas i used to be analyzing this book, I felt a connection to Vlad, so whilst he used to be in discomfort I felt the same. I cherished how the writer defined how Vlad felt approximately Henry, Otis, Meredith, and Nelly greater than she did within the first books.It is sweet that Heather Brewer(author) is offering progressively more information regarding Vlad, his life, and his emotions because the books move on. For example, while Vlad could not keep watch over his emotions in the direction of Meredith, she defined why Vlad felt he had to get a divorce with her,and additionally while Otis left,we discovered how shut Vlad and his uncle were,their emotions in the direction of every one other, and what kind of they deal with one another. Overall, this used to be a great ebook and that i hugely reccomend this publication for those that hate Twilight yet nonetheless like vampires. it is a solid e-book for in particular heart institution scholars or greater grade scholars of easy school.

Kim Baccellia: Minions unite! Vlad is again and now within the 10th grade. enthusiasts of this sequence will not be disappointed.Vlad might be happy. the woman of his dreams, Meredith, is his girlfriend. Henry is his most sensible friend. And Snelgrove, his center tuition principal, is not any longer in his life.Well, it seems that a few issues do swap should you get older. something is his uncle Otis has been long past for a protracted time. Vlad is having negative nightmares and Henry is performing humorous through no longer eager to dangle with him like he used to. Plus with his hormones, another, scarier urge is taking over. One he refuses to succumb to.I fairly loved this 3rd tale of THE CHRONICLES OF VLADIMIR TOD. Vlad is now within the 10th grade the place common youth are suffering from such things as grades, girls, becoming in, and hormones. And Vlad, well, he is not the conventional teen. Brewer does a superb task of

revealing the angst and clash of a teenager vampire who simply desires to be normal. the stress builds to an motion packed assembly at Stokerton, the place Vlad learns a few startling secrets and techniques approximately himself and people round him. fanatics of vampire stories will love this sequence informed in
