Description

David Icke's most powerful and explosive book so far. Every man, woman and child on the planet is affected by the stunning information that Icke exposes. He reveals in documented detail, how the same interconnecting bloodlines have controlled the planet for thousands of years. How they created all the major religions and suppressed the spiritual and esoteric knowledge that will set humanity free from its mental and emotional prisons.

Insightful reviews

Gordon Hazzard: I have read several of Icke's books. (I recommend "I Am Me, I Am Free") I saw him lecture in 2003. Dynamic speaker and researcher. His books are packed with information on who really runs the world. There's a lot to digest in this particular book. Parts of it are hard to digest, but for the most part it tells it like it is.

Paul Murphy: Best book ever!!!

Greg Younger: What a challenge this book is! No matter what you think of the questions Icke raises or the sacred cows he sacrifices at his altar, it's compelling as hell. I especially love his humor.

Question authority. Become the solution.

Adam: I can't, in strong conscience, expense this multiple star. yet hearing the audiobook was, honestly, a joy. As a man who loves The X-Files, who has a fascination with esoterica and basic weirdness, i discovered this e-book completely enjoyable; it truly is an encyclopedic amalgam of old mythology, esoterica, new age babble, pop psychology, and each conspiracy concept identified to human and reptile. a few humans contend that David Icke doesn't think in his reptilian thesis. That David Icke is simply a man who discovered how fucked up the realm is and the way fucked up strength might be and is making an attempt to discover how one can get humans to imagine via those issues. As in, he is catering to an evidently substantial variety of people who find themselves no longer keen to contemplate the evils of, say, overdue capitalism and company influence, until additionally advised that reptilians are in command of capitalist machinations. That this can be satire alongside the strains of fast or (more kind of and probably) only a type of esoteric instructing that isn't particularly approximately its floor that means at all. I wish to imagine that David Icke particularly believes within the reptilians. it really is even more enjoyable that way. i am additionally unsure if believing Icke's nonsense is a route to a greater world. i have began taking extra heavily the belief that, for the hoi polloi, dumb crap that demanding situations the facility buildings that perpetuate the worst impulses of humanity can be suitable, can be the one option to achieve the idiotic brains of the good unwashed. Or, to place that extra nicely, it'd be a superb factor for impressionable morons to fall for brand spanking new agey crap vs. sticking with fascist spiritual firms that actively help and canopy up

for baby rapists, or fascist non secular leaders who actively aid patriarchal violence opposed to women, or totally vile war-mongers of either non secular and political stripes, etc. Given how vile the mainstream messages we obtain are, and the way unquestioning the ideals of most folks are in such crap, what damage can fooling the hundreds into believing in reptilian conspiracies most sensible fought with LOVE and crystals or regardless of the fuck do? Then there is the a part of me that responds with the fewer cynical perspective and doubtless the extra mature one: we actually should no longer perpetuate the concept that individuals are that stupid. that perhaps it truly is greater to, uh, truly attempt to get on the truth, or at political and social preparations that maximize caliber of existence and stop bad abuses. Sans reptiles. Then again, there is lots of legitimation for the viewpoint that holds that individuals are only bizarre and eccentric apes and very simply wish you to inform them a few tale approximately magic reptiles (or magic fire-beings and light-beings and magic sky fairies and magic zombie carpenters). yet let's take Hinduism for an example. The philosophical Hinduism of the Upanishads and of next philosophical colleges in India is an exceptionally sophisticated, intellectually rigorous philosophical procedure or approach. The standard-issue Hinduism of the uneducated is the type of factor that perpetuates the worst form of tribal nonsense, superstition, and cultural exclusion. It has nearly not anything in universal with the Upanishads other than universal names for the gods. So for instance Icke's paintings turns into the template for a formal cult and spreads to the really moronic and intellectually uninspired. Do you notice the place that takes us? Icke's already speaking to Christian Patriot militias within the States. But, at the different hand, atheistic/irreligious ideologies that come with no magic beings of any type contributed to the homicide of over a hundred million humans within the twentieth century. Hello, Stalin, Mao, Hitler, Pot, et al. through comparison, the lunatics in [unnamed association please do not kill me] are definitely cuddly. So. the place does that go away us? Is Icke a messenger of peace to be revered and in demand for his esoteric teachings? Or is he a lunatic spreading natural lies and top us down a dismal path? Also, re: fees of anti-semitism vs. Icke, I current the next dialogue: Thoughtful reader: "So, David, through 'reptilians' you evidently suggest 'Jews,' right? Like, you are a racist weirdo conspiracy theorist who desires to persuade non-racists of an identical stuff Stormfront-dwellers already believe, right?" David Icke, in response: "DOES GEORGE W. BUSH glance JEWISH TO YOU?! he is evidently A LIZARD FROM THE RACE OF LIZARD people who keep an eye on THE WORLD!" I dunno. Icke's followed many of the Jews-control-the-world rhetoric, yet without, you know, genuine connection with Jewish people. that is kind of the most factor that is undesirable approximately acknowledged rhetoric. Icke most likely rather believes within the reptilians. If an allegory, i believe the reptilians characterize anything broader than the standard-issue Stormfront-type "dem Jews" stuff. As in, they characterize the elite with all of the power, despite which loony Abrahamic factor they follow.

Lisa: this e-book is completely the main ridiculous and by some means nonetheless impressive conspiracy booklet that i've got learn so far. he claims -- and slightly "proves" via notable circumstantial facts -- the following: hitler wasa rothschild jew, princess diana used to be murdered through the royal family, and all of the presidents and other people of energy are literally reptilian shape-shifters from one other size which are controlling our ideas via radio waves and different brain regulate techniques. brilliant! it's absolutely worthy a read, yet needs to be fascinated by a grain of salt.
