Description

Tom Peters--brilliant, original, and perhaps the most inspiring and listened-to business thinker of our time--has a lot on his mind these days. And he wants to share it in *The Circle of Innovation*.

The world of business is in a permanent state of flux, he argues, a state of chaos in which constant innovation is the only survival strategy--for the individual and for the organization. And he presents here a lifesaving handbook--both provocative and practical--designed to turn any organization into a perpetual innovation machine.

Insightful reviews

Jim Dooley: I was fortunate to be in the seminar audience the day that Tom Peters said he was unveiling his CIRCLE OF INNOVATION. It caused quite a stir that day.

One fellow told me that Tom Peters was essentially collecting the work of others in this book, but I pointed out the copyright date. If you've heard most if this before, I'd hazard a guess that it was from others who jumped on the Tom Peters bandwagon.

I find the writer's work to always be provocative, although he did upset some folks this time with his observations and conclusions. Love him or hate him, he will start the wheels turning...and that was his intent.

For the reader today, I would suggest that this would be a good one for the entrepreneur who is putting together a business plan. It will not tell you what to do, but it will pose the questions that you'll want to answer for investors.

Jim: I was a charter member of the Tom Peters fan club during my "business" days. Unfortunately I never had the chance to work for an organization that glommed on to his ideas. Still, watching his seminars is always inspiring and fun, and his books, for the most part, are quenching sips at the business revolution kool-aid.

Dan Piette: Pretty good

Brooks: no longer great...maybe simply because this is often older and such a lot of more modern books have lined an analogous material...Some gems..."It is simpler to kill a firm that to alter it" You do not bounce a chasim in sure - keep away from incremental improvements. advertise quick prototyping - overlook professional, Provoke.
