## Description

In *The Eight Human Talents*, Gurmukh, an internationally renowned Kundalini Yoga teacher, explains ancient methods for creating true health of the body, mind, and spirit. She shares the remarkable stories of healing and recovery she has observed in almost thirty years of teaching Kundalini Yoga to everyone from school teachers and waiters to Hollywood celebrities like Cindy Crawford, Courtney Love, and Madonna. Her teaching has helped world-class athletes and paraplegics; she has also worked with infants and seniors. Anyone can benefit from these simple yoga and meditation techniques, which can revolutionize your physical, mental, and spiritual well-being.

The yoga she practices invokes eight chakras, energy centers of our bodies that are the seat of the eight the human talents. These eight uniquely human talents include Acceptance, Creativity, Commitment, Compassion, Truth, Intuition, Boundlessness, and Radiance. Each human talent has a corresponding shadow emotion, namely, Resentment, Guilt, Anger, Fear, Denial, Depression, and Grief. When there is an imbalance in one of the chakras and an overabundance of its shadow side, we sometimes see the creation of illness.

If you have ever longed to increase your creativity, intuition, compassion, health, and prosperity, *The Eight Human Talents* is for you. If you ever wished that you could escape the fear or anger that cripples you, this book will give you simple, practical tools to change your life profoundly. All that is required is a belief in the possibility of change and a commitment of as little as three minutes a day. Gurmukh makes Eastern wisdom accessible to everyone. *The Eight Human Talents* will inspire you with stories from her own life and the lives of students who have used these teachings to transform their physical, emotional, and spiritual health. Gurmukh's gentle, wise, and witty counsel has helped thousands of students to make a quantum leap toward happiness, and she can help you, too!

## Insightful reviews

Karla Becker: Have read this book many times. It introduced me to Kundalini Yoga, the yoga of awareness.

Erin: I'm only 50 pages into this book, but it's delightful. The explanations of the talents and shadow emotions related to each chakra are really fascinating and easy to relate to. Stories are employed to illustrate the manifestation of the chakras, and it really gets you hooked. I hate to admit it, but I usually have a hard time paying attention when I read yoga philosophy. This is so different and conversational and has just the right amount of asana and pranayama mixed in.

Jezyka: No joke, this is the recommended book that I'm supposed to be reading for my yoga college course.

Here's my problem with it...

I understand that the chakras are a tricky business, and that it's going to be kind of hard to

---

explain them without sounding all neo-crazy. That's okay I suppose, I'd like as much hard science as possible but she's explaining something only partially backed by such.

My problem? Constant mention of God. That negates the entire study for me. I'm an atheist, and yes I'm alright with theists, but how can I pick up a book that I paid \$15.00 for in good faith for my college class, to have it link everything to God?

I've only gotten through a matter of pages so far.

This is a personal thing, and to me it makes me uncomfortable and frustrated. To someone else it would not be an issue, and certainly it's true that Kundalini Yoga has brought a greater level of happiness to many people. But I will have a hard time getting through this book if I manage at all.

Ken Deshaies: Well, I'm actually into Kundalini yoga, and Gurmukh nails it. From the final philosophy to precise practices you could place into position at home, this can be the manual. It is going to continually be at my side.

Kc: a superb publication at the 8 chakras and a few easy workouts to "open" them. Gurmukh is a truly well-respected instructor of kundalini yoga ("the yoga of awareness"), and that I imagine her video clips do a greater task of introducing kundalini practice and that I certainly suggest those. This e-book is an effective complement to the video clips if you are looking to examine more.

Katharina: while you're openminded and consider inspired, learn this book. It truly is one among my "go to's" weekly. It teaches mindfulness and enlightenment via chakra balance. I like Kundalini Yoga!
