Description

THE WOLF MUST HAVE A MATE TO SURVIVE...

Nicolas was the strongest and fiercest of the Draicon, until he was banished for a trumped-up crime. Now the werewolf has only one path to redemption: find the Draicon's long-lost empath, the woman who will save the pack--and Nicolas himself--from terrible danger. Maggie Sinclair is a veterinarian, dedicated to healing. She has no idea of her true nature, the magic waiting in her soul--or the man coming to claim her. The survival of their pack depends on them finding each other, on their ability to become one. But their enemies have also found Maggie, and will kill to stop her awakening to an all-consuming passion...

My Thoughts:

Werewolves or Draicons as they are in this series was an inspired look at the werewolf legend. The mystical presence and magic crosses sub-genres in the PNR world. Nicolas was a true stoic hero, misunderstood with a stiff upper lip. I adored him Bonnie Vanak gave him a depth of character that I wish she had explored further, introducing his artistic side then to make a point that he had softer edges was great but I would like to have seen it somehow brought back in the epilogue so that it another reason for making it a character trait. Maggie was another thing altogether, I liked her but didn't "feel" her to the same depth as I felt Nicolas. I understood the childhood trama but she still came off as too stubborn to me...and that fact that she went with the pack "hunting" I just couldn't figure out after her angst about it and hystria it seemed out of character. I loved the creativity of Bonnie Vanak's writing how her mind interweaves the relationships of good vs evil and how in some there is a hint of good that if nurtured would grow. I am anxious to see where Jamie and Daimon's story goes and hope we get another meeting with Nicholas and Maggie as the series progresses.

I gave this book a solid 3 stars and will be reading the next. I would recommend this to readers who are looking for something different. However I recommend they begin with this book and not the .5 as listed on BV's website.

Indah Threerz Lestari: 987th - 2011

signorina Vei: Caira : satu untuk selamanya, dalam bahasa kuno draicon. penuh action, & ga lupa love story nya. akhirnya ada juga werewolf yg menurut gw bisa sekeren vampir, walaupun yg ini lebih ke shape shifter. tapi Nicolas itu perwujudan dari seorang werewolf tangguh, prajurit, lembut, keren & beda dalam saat bersamaan. ga nyesel kok bacanya. ^^

S.L.: i really drifted to a halt in this booklet some time ago, yet as i am every part i've got and need to learn subsequent yr (and let's no longer child ourselves, the following several) the truth that i have had little wish to decide it up back implies that eventually it simply wasn't for me. The ebook began with nice promise, honestly. i used to be drawn in and loved the tale and characters sufficient to learn midway through. Unfortunately, that is the place the ahead momentum floor to a halt for me. Yes, the romance is important, rather in a romance novel, however it felt just like the pacing and plot used to be sacrificed for the needed/expected romance to develop into the point of interest for a while. while there has been a mix of plot and romance-building, i used to be all in. Granted, i'm interpreting this with a 2013 hope and the ebook used to be released in 2007. (That's how some distance at the back of I am.) that will have whatever to do with it. i am not giving up on Ms. Vanak, simply this actual book.

Anna: curiosity to learn

Danielle The Book Huntress (Self-Proclaimed Book Ninja): This used to be an exceptional publication with a fascinating storyline, yet having learn a few of Vanak's books and loving them, I wasn't blown away with it, even though it did have a few interesting moments and used to be very well-written. I notice that the 1st ebook in a chain has a tendency to be the weakest, and that i took that during stride. i believe it was once additionally the problem of it taking a bit too lengthy to achieve what Nicolas' motivations are and never knowing why he was once so dogmatic approximately making Maggie right into a cold-blooded killer in their enemies. on the related time, as soon as I bought into the book, i did not are looking to positioned it down. i admire the path that Ms. Vanak took with the werewolf theme, even though it was once beautiful ordinary and strange at first. The charm among Nicolas and Maggie was once fiery and the affection scenes have been scorching. Overall, I loved this e-book and was once wanting to learn the following e-book within the series, Enemy Lover. really being brought to Jamie and Damian, i used to be very wanting to learn the following book.
