Insightful reviews

Gloria Yasmin: Such a helpful book. You may think you don't need a guide and of course, you don't have to take everything from the book only the bits and pieces that you found to be truly fitting for your life, but for me this was a great book. It felt as though the things found in this book would be similar to the things my older sister would have informed me about, if I had a sister.

Dawn: Although I think this book is directed to women a little bit younger than me, I did learn a few things. Definitely worth reading!

Nance: WOW! Every young woman in her 20s needs to read this. This book says it's about absolutely everything and IT REALLY IS! It has information on homekeeping, relationships, etiquette, finances, friendships, health, & so much more! I have a feeling I'll be revisiting this frequently.

Kimberly: I learn this on the recommendation of 1 of my coworkers. It has a few issues which are sturdy to understand and should be stable as a reference advisor for a school age lady etc. however it has undesirable language and a few different references that i didn't like.

Heather: i feel this ebook has a few nice info in it. it sort of feels extra helpful for a woman simply beginning out on her own, yet I nonetheless stumbled on a number of beneficial counsel and evidence that i did not know.

Amanda [Novel Addiction]: This publication had a few stable information, even though i will see it being larger for these of their senior 12 months of high school or heading into college.. or even even correct after college, whilst "real life" begins. yet there has been little or no in the following that i did not already know, and the only part i used to be relatively drawn to was once painfully short.
