Travis Nacke: This book had too much description. The story was also very slow. I didn't really like anything about this book.

Nat: I read this as a 14 year old school girl, and the fact the story remains as scary to me today, some 25+ years later is testament to James Herbert's fantastic imagination! Despite scaring the absolute cr*p out of me this remains one of my favourite books ever! Read it!

Deanne: Very quickly read, loved the quick paced story.

Dreadlocksmile: First released again in 1981, 'The Jonah' was once Herbert's 8th novel to be published. relocating just a little clear of his past splatterpunk and down correct gritty horror topic matters, this good written and fascinating story grants a good balanced combination among a mystery and a horror. Set in a quiet coastal town, Detective Jim Kelso (a general Herbert type anti-hero) is put on an task to find the explanation in the back of how an excellent sincere neighborhood relations got here into touch with the drug LSD, that just about observed the demise of them in the course of a few severe and bright hallucinations. The plot thickens as Kelso discovers that there's much more than simply sincere fishing paintings occurring during this quiet location. As Kelso will get towards the truth, a way more tense flip of occasions unearths itself. 'The Jonah' is a good paced novel that attracts the reader into the constructing storyline with the mysterious occasions which are occurring. Kelso is written as a truly human and simple to spot with character. The interlacing subplots that run parallel to the most thread of the storyline upload an outstanding intensity to the unconventional as a whole, while fleshing out the characters and their respective pasts. Recurring flashbacks that hang-out Kelso during the novel upload an fascinating element to the tale, with a tremendous query mark consistently putting over the character's unknown background. Obviously, Herbert attracts this out till the end, build up the suspense during the novel. Once the radical has set itself in motion, the motion comes thick and fast, with average cliff hangers finishing each one bankruptcy making the publication tricky to place down. The grand finale is sort of surprising, with a slightly noticeable twist that remains over shadowed by way of the sheer explosion of occasions and the disclosing of the hideous fact that has been a relentless undercurrent in the course of the tale. the unconventional comprises the standard enter of intercourse and fringe of the seat violence. The

“who’s at the back of it” part of items is completed well, holding the reader guessing on each one web page for the 1st 1/2 the book. All in all, ‘The Jonah’ is one other vintage piece of darkish fiction from this rather well revered horror writer. The unconventional runs for a complete of 253 pages.

Michael Woods: I have learned quite some of James Herbert's books, and so they appear to healthy into camps: tales like "The Fog", "The Rats" and "Creed" are constant nice horror stories. Then there are these books that consider like books glued together. "The Spear", "Sepulchre" and "The Jonah". There are a few nice moments, however it does not believe like a standard mystery hooked up to a good horror finishing from a unique book.
