## Description

The Yeerks are stepping up their invasion tactics. And Marco has problems of his own. His dad is starting to date. But Marco knows his mother might still be alive.

## Insightful reviews

Rose: <3 Although Marco gets all the really gross morphing issues.

Alba: No me gusta el final, es muy de ser cabrona la autora.

Alan Gilfoy: Marco seems his usual funny self. I liked the bit of that and family life before we got into the usual exposition recap. I wondered how the intro fluff would tie into a main plot. Ah, something suspicious on TV.

Peter moving on when Eva's not really dead seems like yet another example of how it may have been easier to tell their parents earlier.

I figure the morphing problem is a stress side effect. That reminds me of Rachel's problem in #12 Reaction, including not coming clean about it. I wonder how that's going to blow up in his face. It did slow him down, I'm glad it wasn't ignored, but I wonder why the analogy to #12 wasn't made.

Half hour bike time between Marco and Cassie implies 3 miles or so.

The annoying dog was good for comic relief all along. Bad doggie!

A lot of silly things went on as they were trying to bust Tennant, LOL. It was interesting how his Yeerk seemed whacked even for Yeerks.

This book did seem especially amusing while playing a drinking game with it.

Nemo (the Moonlight Library): delivered to you by means of The Moonlight Library!Marco's dad is getting remarried, and our favorite resident comedian's now not dealing with the stress. To make concerns worse, a favored television character who promotes the Sharing on air is ready to get promoted to a countrywide audience. Marco's wasting keep an eye on of his morphing, and so they need to discredit this Controller with no revealing the Animorphs's largest secret.This e-book is without doubt one of the ones that doesn't make a lot sense. it appears the tension Marco is feeling over his dad remarrying whereas his mom is probably not lifeless is the tipping aspect in a subversive guerrilla struggle waged opposed to an intergalactic army. it sounds as if it's the tipping point. since you know, it's in contrast to the opposite Animorphs have whatever to emphasize out about. You know, Cassie being a pacifist compelled right into a war, Jake the jock becoming common Patton, Rachel being affected by the psychopath inside, Tobias trapped in morph and Ax being the one Andalite inside one thousand billion miles and all that.But no. it sounds as if Marco's the main emotionally unstable, and it's now not due to the

---

war, or checking out his lifeless mom is admittedly alive, or having to establish his mom to die, or that he's killed people. And the way in which the Animorphs be capable to defeat the Yeerk destined for television stardom? Annoying him with a poodle morph. demanding him to the purpose of using him crazy. And what's worse? The plan works. Cassie spends the whole novel being Marco's psychologist, but if it comes all the way down to it, Jake snaps at him to 'deal' with him problems, and he does. simply because he can both wallow in self-pity, as Cassie was once letting him do, or he can locate the humorous facet of it, and deal. Although it is a well-written novel and definitely isn't the worst one written, crucial factor approximately this novel occurs at the ultimate page. And it's in simple terms very important since it ties into the following Chronicles, Visser.

Alex: as soon as again, a Marco booklet feels very time-honored even if i did not imagine I had learn this some distance into the sequence as a kid. I well-known the most plot of The Reunion whereas examining it, and that i felt that deja vu back with this book. not one of the different books have appeared usual previous ebook 25 or so, so i am not yes if I simply randomly picked up later Marco books from the library as a kid? Who knows. I cannot wait to learn Visser after that notable cliffhanger!

Ethan: I enjoyed IT!!!!!!!!!!!!!!!!!!!!1!!
