Description

This most romantic of fairy tales is found in many versions, and the story of the beautiful girl who falls into a long sleep, to be awakened by a lover, has been interpreted by some as an allegory of the spring revival of the earth after a long winter. Charles Seddon Evans, a schoolmaster turned publisher, retold the story specially for Arthur Rackham, who illustrated it with silhouette drawing as a companion volume to CINDERELLA, both first published in 1919 and now reissued in Everyman's Library.

Insightful reviews

Melody McBride: I just love all the fairy tales. I love reading the original stories too, because most of what I know is what Disney has turned the story into in their movies. Which, of course, is totally different.

So I really enjoyed this. :)

Krisette Spangler: This is a retelling of the Sleeping Beauty fairy tale. I enjoyed it, and the drawings by Arthur Rackham.

Mel: Read for free on Gutenberg. I'm not going to bother to review it. I guess everyone knows the story! I read this for a blog project :)

Doris Cordellia: loved it.

Kirsten: Beautiful, cleverly written model of this tale from 1920. The easiest half are Arthur Rackham's wonderful, interesting illustrations, performed within the silhouette style.

Lynn: superbly advised model of The Drowsing Beauty. This is not the unique model yet a truly excellent one. I feel CS Evans wrote it within the 20s. A beautiful learn which I hugely recommend. I had forgotten. A lot of the tale and changed it with the Disney model which I don't believe is particularly good, yet I do know I used to be uncovered to this model decades in the past as a child.
