Insightful reviews

Aliyah: The Talented Clementine by Sara Pennypacker. This story is about a girl named Clementine who does not like participating in class. The story takes place in an elementary school in the 3rd and 4th grade where the school is fundraising to get money. It's told through the eyes of Clementine who thinks she can't do anything. Clementine struggles to find a talent before the school talent show which is called The Talent-Palooza, Night of the Stars! Clementine has the opportunity to do something special at the end of the show. Her teacher Mrs. Rice and her best friend Margret help her in difficult and weird situations. My favorite part of the story when Clementine got 3 desserts and ate them all. This was my favorite part because I started getting hungry and that part was really special for Clementine. My least favorite part was when Clementine begins doubting herself by saying 'I can't do this or that.' You shouldn't doubt yourself. I would recommend this book to my friends because this book is really good to read and it is interesting. I will continue to read more books about Clementine.

Kellie: Clementine reminds me of an older Junie B. Loved reading about things from her perspective. Great series for gr. 3-4 (level O) pg. 33 " And I learned the difference between crashed and smashed: crashed is easier to clean up. Also, I learned that coffee is easier to clean up when you spill it on a new brown rug. You hardly have to touch it at all!"

Barbara: Clementine is a book about the adventures and spontaneous situations that an eight-year-old girl have with her friends and family. In this book Clementine gets in trouble when she is found cutting one of her best friends hair in the school bathroom. Clementine gets reprimanded for the misunderstanding and as an act of solidarity she decides to cut her hair as well. As the story progresses she gets in more trouble but her innocence and good intentions flourish at the end.

This chapter book is an easy read for young reader, some pages are illustrated with black and white pictures that help young readers to compliment the text. The book has some creative lines, subtle jokes that could be entertaining for children. I was not really impressed but it was not horrible.

Leah Robinson: starting to be up all of us went to or have been part of a expertise show, even if it excited us or made us nervous. What approximately Clementine? this can be an exciting tale of a tender empathetic lady named Clementine whose type is partaking in a expertise show, yet she believes she has now not talent. First Clementine attempts to get out of the expertise show, then she settles on looking for a talent, yet it's no use. (Spoiler Alert Ahead) even supposing Clementine's mom and dad comprehend her larger than she likes they usually already knew her expertise of noticing issues others do not, this captivating tale involves an finish with Clementine taking keep watch over through the practice session and being the express producer. Clementine has chanced on her expertise finally and Celebrates with a night on the Ritz together with her parents. This tale is a smart transitional book, because it is based and reads like a bankruptcy e-book but additionally has a few pictures. The illustrations will not be very large, and purely depict key aspect from the web page or chapter. corresponding to Clementine attempting to juggle, or donning the hot dragonfly heels. i assumed this used to be a lovable ebook and that i will surely have it in my classroom. i might even be drawn to the others during this series. This publication used to be additionally a truly speedy and straightforward read, containing spelling aides in addition to a few more durable phrases outlined (such as empathetic).
