## Insightful reviews

Kiki B. Lan: Very entertaining read. Funny, real, comprehensive advise. A lot of the tips can be easily used, no harm no foul! If you pick up this book thinking its going to change your life its not what it does do is entertain you and at times gives you food for thought. Take the advise you feel you can use and very importantly apply it otherwise its just another book that made you laugh.

AH: What an interesting book to win in a Goodreads giveaway. Full disclaimer – I have already found my man and I am very happy with him, but I was curious if there was anything else I should be doing.

The Vixen Manual is a How to Guide. It is divided into 5 sections: Being Single, How to Attract Him, How to Engage Him, How to Release Him, and Maybe It's You. Each chapter is easy to read, with important information highlighted in pink, little boxes with "Vixen Tips," and a bright pink chapter recap, outlining the most important points. The book has many illustrations and they are not suitable for work/children in the room.

While there are some valid tips in the book that are based on the author's experience, I had some difficulty with a few things. First of all, what is it with the picture of "porn pussy" on page 18? That alone, made me want to throw the book across the room. I checked the book and there was no medical reference for this condition (which is a relief!).

I was scratching my head when I read the advice for dating and the single mom. OK, I understand that when you are dating, the child should not see the date until there is a ring on your finger. I get that. I don't get why you would not want your child to know that there is a sitter in the house. What happens if the child wakes up? And make your sitter your friend? You're lucky if you find a sitter, let alone make her your friend.

There was some funny advice for dealing with rejection that basically involved spending a lot of money to upgrade yourself. Yes, it will make you feel great. Keep in mind that the credit card bills will come in and if you can't pay the bills, you'll feel worse.

All my beefs aside, I am sure that some people will be entertained by this manual. I'll be passing it on to a single girl I know. I hope she enjoys it. As for me, I'm going to keep doing what

Sha: this book is good. she breaks down how to get the man you want and keep him. I think everybody needs help in this department because I know I do. I find this very interesting and I enjoyed every page of it. from cover to cover. keep it up karrine steffans. I have mad love and respect for her.

Valencia: I wasn't particularly inspired with this book. It was once boring.

Racheal: This ebook is a multitude made for immature those that are looking to play games. foolish rabbit, Trix (tricks) are for kids. She cannot be severe with this book!

OOSA : a girl with no Discretion,I used to be disenchanted in addition to indignant with this read. The name is misleading. "The Vixen Manual" is extra approximately sexual offerings and exploits than a advisor or manual. It doesn't comprise the influence of studying as in altering directions, taking advantage of reports or honest funding in emotional maturity. Therefore, rather than being instructive, it turns into a magazine of reports the place the alternatives of the writer are left to be evaluated by means of the reader. an identical will be anticipated if this was once autobiographical of a madame. "The Vixen Manual" is degrading to girls (honorable) and decreases their position to exploitation via males as though they've got no intrinsic price yet are ascribed worth in line with their sexual acumen. males were degrading girls for years; it really is actually unhappy while a lady does it to different women.
