## Insightful reviews

Karen Brown: Recommended by Debbie; a little convoluted; Canadian geese frolicking thing!

Shelley: Although murder mysteries are not at the top of my preferred reading, this one I really liked. The quick, clipped narrative style was very effective in conveying the narrator's character. Within the story of the compelling murder mystery, it delved into the psychological aspects of the characters and, again dealt with one of my favorite themes – secrets. There were lots of twists and turns and back-stories to keep you guessing about who was involved in what. Thayer is extremely skillful in weaving together all the elements of the story. It was definitely a good read!
