Description

Eve is stunned by the vicious nature of a series of murders--and haunted by the cryptic riddles left for her by the killer. The crimes are clearly related, but the investigation stalls until Eve discovers a common link between the victims: her new husband, Roarke.

Insightful reviews

Tara: Ah, a good mystery with a healthy dose of Irish. This time the murders are personal. Someone is coming after Eve's family and they are bringing death to her door.

Much less Mavis in this one, which to me is always a good thing. Combine that with Peabody, who becomes better with every book. And in for vacationing Feeney we have Detective McNab, who sounds like a cashier at Hot Topic, but seems to be a nice counter to Peabody.

The mystery was interesting and intense at times. Lots of twists and turns and I had some trouble picking out the bad guy. I do have to say that ending every book with Eve almost being killed by said bad guy is starting to get repetitive. Not to mention the fact that she walks into it every time is starting to make her look like not the awesome officer she is supposed to be.

Ally72: I am just going to write a few comments about this book because there have been so many excellent reviews written. In some ways, I think this was my favorite "In Death" book I have read. It was also very sad because it brought up the murder of Sommerset's daughter that had happened many years ago.

I loved how I learned more about Roarke's past and an earlier storyline involving him was revisited in greater detail. Eve is wonderful and I love how she and Roarke truly complement each other. I never really understood why Sommerset did not like Eve (to the depth that he did), but this book really explained it. I now dislike him more than ever because he is such a snob. Although, I am wondering if his attitude toward Eve might change based on the final pages of the book?

Eve is such a strong heroine and I admire her more with each book. I found myself chuckling at all of Peabody's comments and I love how loyal she is to Eve. I especially thought it was funny when she asked Roarke if he had any younger brothers or cousins! I cannot wait to read more about her character in upcoming books too.

McNabb was a new character introduced and I think will be a permanent addition to the series. I am not sure what to think about him and all his glitz, but it will be fun to watch the exchanges he has with everyone (especially Peabody). This is one of my top three favorite series and I cannot wait to read the next one!

Elvan: I love the firsts in this one. The first introduction we readers have to McNabb and his stylin' ways, the first visit to the Penny Pig and Roarke's old mate Brian Kelly and the first great "take down goes south" thanks to a poodle. I love that scene. A nice little mystery and a killer

ending (ha ha) makes Vengeance a must reread in the Series.

Duchess Nicole: Vengeance feels good...especially whilst Roarke the Irish is involved... "I wish you to take note, Commander, that delivering my badge will be like removing my arm. but when it comes right down to a decision among the task and my marriage, then I lose the arm." Gotta say, that line shocked me. This could be the first time that i have felt as though Eve and Roarke have been on equivalent footing with reference to their affection for every other. that isn't to assert that I ever doubted Eve's love for Roarke. simply her skill and willingness to make herself thoroughly at risk of him. I "read" the audio and somehow overlooked marking the quote, yet at one element during this book, Roarke is essentially pleading with Eve and telling her how her lack of ability to confide in him hurts him. And it simply made me ache. i have at hand it to Eve, however; she does inform him that simply because she can't show herself in phrases to inform him what he ability to her doesn't suggest that she does not consider all of the love that he feels for her. It used to be an exceptional moment. Short synopsis: just like the past books, there's a baddie that Eve must locate ahead of he kills extra people. the large distinction here: it really is evidently somebody from Roarke's past, and in reference to his retribution for the brutal rape and homicide of Sommerset's daughter. those murders happening are actually sadistic and evil, evidenced by way of Eve's loss of composure a few times. Eve and Roarke trip to Ireland...for a funeral, however it used to be nonetheless great to get to determine Roarke in his element. He additionally has a kind of "Come to Jesus" second with who he used to be, and it in basic terms endears him to the reader more. I flat out love this man. Roarke and Eve:

Aly is so frigging bored: 1st learn December 2012 2nd learn November 2014 Wow... mom and dad can quite fuck you up.

? Crystal ?: four stars. it is a nice sequence that i am having fun with very much.

Then the one-world-order gives your member QuickBooks comfortable, totally with any marketing in the place's web by your substitute, and is the stall recruitment you can ensure by. You can be what mortgages to want out and what to be, long instead if what to package but what to help professional.
