## Insightful reviews

Chazzi: A wife and mother goes missing. The husband claims she has left and he doesn't know where to. He is worried, but yet there is something that doesn't sit quite right to be read. Then a piece of a body shows up in Lake Mead. Is it part of this crime? Brass, Warrick and Nick get the case. Elusive evidence and story lines that don't ring true, work against them.

A stripper is found dead in one of the private rooms at a strip club. Two possible suspects. Who is lying and who is telling the truth? Sara and Catherine are assigned this case. The scene of the crime hits some nerves from Catherine's past.

The suspects may lie, but the evidence doesn't. Can the team find the necessary evidence to determine the killer and prove it? Will Grissom's analytical mind unravel the threads to make sense of all that is involved?

An enjoyable read.

Maura: I was addicted to CSI and when summer hit and I was out of episodes to watch, I headed straight for these books. And usually, I like to read books involving TV shows and movies so I can get an insight into the characters minds - monologues and such. I will admit that the characters were somewhat out of character from their TV counterparts, but that's also not too unusual. This book is set up sort of like a CSI episode where the team gets split up to work multiple cases and throughout the cases they'll occasionally meet up to debrief or mention in passing what they've found. It's all very good and suspenseful, just like a CSI episode. I really enjoyed reading this as it definitely fulfilled my CSI cravings!

Waardering:

Dit boek is een van de eerste boeken die ik een waardering gaf. Omdat het een voorspelbaar boek is en daarbij eigenlijk wel goed is geschreven, heeft het 3 sterren gekregen.

Devon: I loved this one. A lot. bad Greg <3 This one used to be extra interesting than the opposite ones. plenty of blood shed. plenty of drugs. Ah, i like it. ....which most likely says loads of undesirable issues approximately my psyche.

Hermioneginny: Lynn Pierce è scomparsa, di lei rimane solo los angeles voce su una cassetta, dove il marito minaccia di ucciderla e tagliarla a pezzi. Madre devota e cristiana rinata, vuole il divorzio dal marito tossicomane. Il volto sfocato dell'assassino di Jenna Patrick è stato registrato su un video della sicurezza del evening membership in cui lavorava los angeles ragazza. La squadra di Grissom è alle prese con due casi difficili, ma riuscirà a scovare i colpevoli... In caso di astinenza dal telefilm, un piacevole tuffo a Las Vegas.
