Insightful reviews

j: This is pretty good for a baby book, I guess, but I kind of find it troubling that we're simplifying the complexities of life so much just because newborns are basically dumber than housepets. Like, morality, hell, *reality* is shades of grey. My daughter needs to see that, even if she can't, you know, literally see that.

You know. Because her eyes don't really work yet.

Virginia Beach Public Library: Perfect for birth-6 months

Carol: Excellent visual clarity for babies. No words which happily leaves it up to both the young and old readers to create whatever discussions they'd like to pursue.

Kelsey: Age: three months - 1 year Simple black and white pictures permit a baby's adjusting eyes to target those high-contrasting objects. excellent first photograph book!

Jeniece Trueman: ELS; Print understanding

Aprils: an excellent publication for newborns!
