Description

American soldiers serve willingly. They risk their lives so the rest of us can be safe. The one small thing they ask is that they not be sent into harm's way unless it is absolutely necessary. But after being lied to about weapons of mass destruction and about the connection between al Qaeda and Iraq; after being forced by stop-loss orders to extend their deployment; after being undertrained, underequipped, and overworked long after George Bush declared Iraq Mission Accomplished, these soldiers have something to say. From his famous 2003 Oscar acceptance speech to his record-breaking documentary *Fahrenheit 9/11*, Michael Moore has been an outspoken critic of the Bush administration and the war in Iraq. But in this audiobook, Moore gives the spotlight to the real heroes of protest: the men and women who have fought in Iraq and want the American public to know how they feel about their mission and their commander in chief. Moore also fields letters from veterans of other wars and mothers, wives, and siblings of our soldiers in the field. They also express their anger and frustration, their tears and pain, and their hopes and prayers. Impassioned, accessible, and moving, these are letters that reveal the true hearts and minds of the men, women, and families on the front line.

Insightful reviews

Randy Ball: I did not vote for Bush (nor would I vote for a Democrat) and I did not support the war in Iraq. However, this book is just disgusting and misleading propaganda.

Jesse: While I totally feel that people like Michael Moore are necessary to keep those in power from man handling the public opinion without an opposing view being available, I tend to be alienated by extremists on any side, and Moore definitely falls into that category.

David Melbie: When I first bought this book back in October, I began reading it and, after finishing *Part One: Letters From Iraq*, I was deeply disturbed. I put the book on my bookshelf and waited eagerly for November 2nd so I could help vote Bush out of office!

Well, that didn't happen. But, the 'war' in Iraq has now been hiked up a notch (bam!) and no one seems to care that Bush lied! He fucking lied! I am outraged!

STOP THE WAR!

BUSH IS A WAR CRIMINAL!

Crisanto J. Jorda: Michael Moore often sensationalizes each factor he touches, and i am often skeptical of his many discourses, yet as a standalone piece piece of literature, it truly is tough to impose a similar cynicism upon our this publication as i might for him. Rightly so, this can be a cold, hard, and sincere anthology of letters detailing how frustrated lots of our troops are with the present wars overseas. And having such a lot of acquaintances within the military, i will be able to appropriately validate their disgust with America's overseas coverage and remedy of veteran soldiers. This ebook is proper meals for thought, however it is definitely now not chook Soup for the Soul.

Sang-Woo: i might soak up fingers to outlive to guard my lifestyles and my family if like our domestic was once lower than assault in no matter what damaging way... yet to not enlist and visit unique and international nations and kill for oil, property, grudge or no matter what bullshit our leaders of authority plan. And, after all there are such a lot of others purposes to head on about, yet i'm going to finish it right here as such. Thank you.

Rachel: So far, it truly is one of many saddest and angriest ebook i've got ever read. it's also extremely important to learn this e-book because it is the voices of our squaddies in Iraq struggling with for his or her lives. UPDATE: i ended it this morning and it's also one of many saddest books i've got ever read. I nonetheless agree that this is often the most very important books to learn due to the fact that those infantrymen positioned their lives at risk for inaccurate reasons of this struggle that has no result in sight. This warfare impacts extra men and women and their households than the govt is keen to allow. The letters are sad, nerve-racking and poignant.
